

**Maricopa Association of Governments  
Teen Survey About Domestic Violence**

Last summer, focus groups were held with youth throughout Maricopa County. Teens identified domestic violence as a major concern. In an effort to make youth safer, MAG is conducting follow-up focus groups and surveys to get more information about the resources that would be the most helpful and the most appropriate for teens. Your honest, open responses will help us make these resources available.

Domestic violence can happen between family members, in a dating relationship or between unrelated people living together. Domestic violence includes both dating violence and family violence. It can be:

- Physical abuse like hitting, slapping and punching.
- Emotional abuse like intimidation, stalking, putting you down, and controlling behavior such as telling you what to wear or who to see.
- Sexual abuse can also be a part of domestic violence. This is any unwanted sexual contact.

1. Do you know of teens who are victims or witnesses of dating/family violence?

Please select the right answer.                      Yes                      No

2. Do you know where to go to get help or information about dating/family violence?

Please select the right answer.                      Yes                      No
