Call for Projects Workshop

MAG FY2018-2022 TIP

August 21, 2017
Teri Kennedy, Steve Tate, Jodi Rooney
1. General Information & Schedule (Teri)
2. FAST Act
3. Funding
   a) Congestion Mitigation and Air Quality Improvement Program
   b) Surface Transportation Block Grant Program: Transportation Alternatives Infrastructure and SRTS non-infrastructure
   c) Surface Transportation Block Grant Program: Pinal County Arterial/Bridge infrastructure
4. Applications and Eligibility (Steve)
5. Federal-aid Process, ADOT Overview (Jodi)
6. Breakout Sessions (all staff)
MAG Staff

- Dean Giles
- Jason Stephens
- John Bullen
- Margaret Boone
- Sarath Joshua
- Steve Tate
- Teri Kennedy
The Maricopa Association of Governments (MAG) is pleased to announce a Call for Projects for Federal Highway Administration suballocated funding allocated as Congestion Mitigation and Air Quality Improvement Program (CMAQ-2.5), Congestion Mitigation and Air Quality Improvement Program (CMAQ), Transportation Alternatives (TA-MAG), and Surface Transportation Block Grant Program (STBGP-MAG). Total funding available for this announcement is estimated at $42.8 million. Eligible region wide project types include Bicycle-Pedestrian non-infrastructure Safe Routes to School projects, Bicycle and Pedestrian infrastructure projects, Paving of unpaved road projects, Pinal County Arterial/bridge projects, and PM-10 Certified Street Sweepers.

Programming Documents

- Memo: Call for Projects: Notice of Funding 8-7-2017 – PDF
- Programming Schedule (General)
- FY 2018 Street Sweeper Applications in the PM-10 Nonattainment Areas – Excel
  (Agencies in Maricopa and Pinal Counties non-attainment area within the MAG planning region are eligible)

December 4, 2015, President Obama signed the Fixing America’s Surface Transportation (FAST) Act (Pub. L. No. 114-94) into law.

The first federal law in over a decade to provide long-term funding certainty for surface transportation infrastructure planning and investment (through 2020).

Continues the Congestion Mitigation and Air Quality Improvement Program (CMAQ) and converts the long-standing Surface Transportation Program (STP) into the Surface Transportation Block Grant Program (STBGP); that includes a set-aside of STBGP funding for Transportation Alternatives activities.

http://www.fhwa.dot.gov/fastact/
Congestion Mitigation And Air Quality Improvement Program (CMAQ) & CMAQ 2.5

Surface Transportation Block Grant Program

- Transportation Alternatives (TA).

Match requirements continue at: 5.7% local, with 94.3% federal.

*MAG programs:
Transportation Alternatives: Safe Routes to School Eligible activities for Non-Infrastructure, studies and for Bike/Ped infrastructure projects.
Provides funding to States for transportation projects designed to improve air quality and reduce traffic congestion, particularly in areas of the country that do not attain national air quality standards.

The **RTP** provides a balanced distribution of funding for each eligible mode.

Projects that use CMAQ funding include Bicycle-Pedestrian, PM-10 Paving, PM-10 Certified Street Sweepers, and PM-2.5 Paving.
Transportation Alternatives MAG Regional Goals (Non-infrastructure):

1. Support SRTS Studies that would identify needed improvements on walking/biking routes to k-8 schools; provide walking/biking route maps.

2. Support bike and pedestrian activities that promote safe transportation for k-8 students to schools or address an identified or perceived safety issue on routes to k-8 schools.

3. Engage Stakeholders (community/partners) in supporting non-infrastructure programs, thereby ensuring sustainable programs.

Projects that use TA non-infrastructure funding include Safe Routes to School Eligible Activities such as safety planning and support for bike and pedestrian activities.
Transportation Alternatives MAG Regional Goals:

1. Improve pedestrian and bicyclist accessibility and connectivity on the transportation network.

2. Assist in providing a safe environment for the bicyclists and pedestrians on both the on-street and the off-street transportation networks.

3. Make bicycling and walking to K-8 schools a safer and more desirable transportation alternative to motorized vehicles.

- Projects that use TA-MAG funding include Bicycle-Pedestrian-Trails infrastructure projects.
MAG Regional Goals for Pinal County STBG P:

1. Expand capacity on existing roadways or intersections of high demand
2. Maintain and preserve the region’s transportation system
3. Address safety concerns in the existing roadway/intersection conditions
4. Promote connectivity between high demand/capacity roadways and activity centers to advance economic viability
5. Maintain consistency with stated jurisdictional policy
6. Achieve a significant reduction in congestion on the region’s transportation system.

Projects that use STBG P funding in Pinal County include arterial roadway expansion-improvement, and bridges.

OA = Obligation Authority, rates may change each year. PM-10 Certified Street Sweeper Call is issued annually. Programming Levels are not part of a current Surface Transportation Authorization and are subject to substantial change.
Project Types:

- **Arterial and Bridge projects** limited to the MAG planning area within Pinal County, in FY 2021 - $1.27, and in FY 2022 - $1.29 in federal STBGP funds (Design and Construction)
Project Types:

- **Bicycle and Pedestrian** projects in FYs 2021 and 2022- $8.77 and $8.91 million each year respectively in federal **CMAQ** funds

- **Bicycle and Pedestrian** projects in FYs 2021 and 2022- $4.18 and $4.25 million each year respectively in federal **TA-MAG** funds
Project Types:

- **PM-10 Certified Street Sweepers** in FY 2018 - $1,755,209 in federal CMAQ funds.

- **Transportation Alternatives Non-Infrastructure Safe Routes to School Studies** in FYs 2021, 2022 - $300,000 each year in federal STBG P: TA-MAG funds.

- **Transportation Alternatives Safe Routes to School – Support Activity Projects** in FYs 2021, 2022 - $100,000 each year in federal STBG P: TA-MAG funds.
CMAQ eligible project area for each program has limitations

- **PM-10 Street Sweepers and PM-10 Paving:** PM-10 nonattainment area in the MAG planning region, and applicant must be a member of MAG.
- **PM-2.5 Paving:** PM-2.5 nonattainment area in Pinal County, and applicant must be a member of MAG.
- **Bike/Ped projects:** 8 hour ozone area in the MAG planning region, and applicant must be a member of MAG.

**Transportation Alternatives non-infrastructure eligible project area:** Safe Routes to School Studies & Support Activities.

- Anywhere in the MAG planning region, and applicant must be a member of MAG.

**Transportation Alternatives infrastructure eligible project area:** Bike/Ped projects.

- Anywhere in the MAG planning region, and applicant must be a member of MAG.

**Surface Transportation Block Grant Program eligible project area:** Pinal County Arterial/Bridge:

- Anywhere in the MAG planning region within Pinal County, and applicant must be a member of MAG.
MAG Staff will insure that applications received are complete. Basic eligibility review will be completed and then applications will be posted to website.

Applicants will receive a receipt that their applications was received and was complete or incomplete.

Modal Committee will review applications prior to the first meeting.

At the Bike/Ped, Street, and Transportation Safety Committee meetings, each applicant will present their project(s) with a pre-generated powerpoint that is composed of photos and graphics from their application. Each applicant will have not more than 5 minutes with a 5 minute Q and A by the committee.

No individual presentations will be provided for Street Sweepers. However questions by Street Committee may be made to the applicant, the applicant should be present.
For each applicant, the Bike/Ped, Street, and Transportation Safety Committees will determine the following:

- **Project definitional adequacy.** The committee will determine that the project is defined in sufficient detail to allow technical review.

- **Project feasibility.** The committee will determine that the project is free from fatal flaws (e.g. commitment to maintain or operate, or adequate budget is included) that would prevent it from being implemented.

- **Schedule adequacy.** The committee will determine that the schedule laid out for the project, including locally funded work phases is reasonable and adequate for the year the project is requested to be authorized.

- **Cost estimate adequacy.** The committee will determine that cost estimates for the project are reasonable, accurate and account for all work phases (e.g. preliminary engineering, specifications, procurement, etc.) and fees (e.g. ADOT review fees) necessary to complete the project.

- **Performance data adequacy.** The committee will determine that performance data (e.g. ADT, miles of sweeping) or surrogate measures used to determine performance (e.g. number of walkers along a route) is reasonable and well documented.
For each applicant, the committee will determine the following:

- **Revisions.** If there are outstanding questions concerning the project, MAG may require the sponsoring agency to revise its application to address the questions. **If an updated application is required, the sponsoring agency has one week (five business days) to provide an updated application.** The revisions will be presented at the second meeting of the Committee.

- **Second meeting (If needed)- project ranking.** At the second meeting the committee will review and address outstanding issues from the previous meeting and recommend a ranked listing of projects for review by the Transportation Review Committee. The ranked list will include all projects presented to the Committee along with the committee’s determinations and the results of required analyses as identified. **If there are no outstanding issues from the information review, this meeting may be combined with the first meeting.**
For each project type, the evaluation will use the following:

**Air Quality Cost Effectiveness Analysis**
- PM-10 Certified Street Sweepers (Procurement)
- PM-10 and PM-2.5 Paving (Construction)

**Safe Routes to School Evaluation Criteria**
- Title 1 school(s), Five E’s, Safety Criteria, Project sustainability
For each project type, the evaluation will use the following:

Congestion Management Process (CMP)
- Arterial and Bridge projects Pinal County (Design and Construction)

Blended Air Quality Cost Effectiveness Analysis & Congestion Management Process (CMP)
- Bicycle-Pedestrian infrastructure (Construction, or Procurement/installation)
2. Local Agency Contact Information (Joint Application):
Applications that include Studies for one or more schools located either in part or entirely in another jurisdiction must be endorsed by that local agency. **Please select the Endorsing Local Agency below and obtain their signature(s) to complete Part F.** Please select up to three (3) Local Agency (endorsing agency) name(s) by selecting from the drop down box provided next to "Local Agency". Once the Local Agency is selected, the appropriate contact information will automatically populate for you based on your selection. (See Note below)

Maps

Give the viewer a sense of where the project is located

- Condition of the surrounding area
- If possible, use aerial imagery
- Google maps – it’s Free!
- www.google.com/maps
Proposed project site or route for service.
All Applications:

- **Required:**
  - Cost estimate (budget worksheet included)
    - ADOT Admin Fee is required for SRTS Support Activities and all infrastructure projects; see fee schedule in each application.
    - Contingency
  - Requested MAG Programming -
    - PM-10 Certified Street Sweepers FY2018.
    - SRTS, Bike/Ped, Paving, Arterial/Bridge: Select which year (2021 or 2022) is your first preference.

- Federally funded work phase match is **94.3-5.7%***

*unless noted in the application.
Who is the jurisdiction’s manager/administrator or designated representative?

- A jurisdiction’s manager/administrator is the City/Town/Agency/Community Manager. A designated representative of a jurisdiction is an employed staff person of the jurisdiction designated by the chief administrator to sign MAG funding request documents on behalf of that jurisdiction.
1. Transmit Application electronically – Keep in excel format, support items including photos, graphics, etc., can be in pdf. **GIS shape files of project are appreciated.**

2. Submit 1 signed copy to MAG by **10:00 A.M.**
   
   **Early apps appreciated!**
   
   - Drop off or mail
   - Running late – Fax or scan and send.

**Monday, September 25, 2017  10:00 A.M.**

**Late applications will not be accepted**
The Federal-Aid Project Development Process consists of multiple steps.

Let’s take a “high level” look at major project milestones:

- **Phases**
  - Local Public Agencies (LPAs) move through these phases to satisfy requirements of the federal-aid highway program so the project is eligible for federal funding $$$. 
Federal-aid Process

Development/Design
18-24 Months
ADOT partners with Councils of Governments (COGs) and Metropolitan Planning Organizations (MPOs) as a conduit for federal funding to the local public agencies.

**PLANNING/PROGRAMMING**

7-14 Months

**Planning/Programming 7-14 months**

- Project and funding is identified
- All phases of the project are programmed in the TIP and STIP\(^1\)
- ADOT\(^2\) and Federal project numbers are assigned for tracking and funding purposes
- Scoping

\(^1\)TIP = Transportation Improvement Program
\(^2\)STIP\(^1\) = State Transportation Improvement Program
ADOT\(^2\) = a state assigned number for identification/tracking purposes
Development/Design

- 15% Plans
  - Scoping completed
    - Determines the purpose & need for a project
    - Defines what is to be included in the project
    - Established appropriate design criteria
    - Identifies problems and constraints
    - Provides the first detailed cost estimate
  - Initial documentation provided to ADOT, i.e. Scoping Letter, Project Assessment (PA) or Design Concept Report (DCR)

- Send project initiation request to ADOT
- Intergovernmental agreement (IGA) is initiated by ADOT
Changes in the project scope can significantly impact the environmental clearance and require a need for re-evaluation, which can cause time delays and increase the project cost.

Development/Design

- 30% Plans
  - Design can proceed up to 60% with ADOT project manager approval; NEPA requirements have to be satisfied
- Clearances may be in process
  - Environmental
  - Utilities

NEPA=National Environmental Policy Act
Plans are being refined in this phase. The “footprint” is set.

Development/Design

- 60% Plans
  - Clearances
    - Environmental (completed)
  - Utility/Railroad
  - Right of Way (ROW) (these two clearances are in process)
During this phase, local public agencies coordinate with utility companies to define how utility conflicts will be resolved.

Development/Design Phase

- 95% Plans
  - Utility/Railroad and ROW working to be cleared
Development/Design Phase

- 100% Plans, Specifications & Estimate (PS&E)
  - Clearances have to be complete:
    - Utility/Railroad
    - Environmental
    - ROW
    - Materials Memo
  - Funding Authorization $$$
  - The project is advertised

Costs incurred PRIOR to authorization are NOT eligible for reimbursement.
ADOT is responsible for ensuring that Local Public Agencies are in compliance with:
- all federal procurement requirements
- providing adequate inspection & supervision
- meeting FHWA closeout requirements
- environmental mitigation measures

Construction Phase
6-26 months
- Award
- Construction administration
- Construction oversight
- Mitigation
Final Acceptance
1-4 Months

A final walk-through and inspection by ADOT, and occasionally FHWA, is conducted to evaluate compliance with contract documents and federal-aid requirements.

The project is not closed out until FHWA records the final voucher payment.

Thank you
PM-10 Certified Street Sweepers

What the sweeper will be used for:
- Replace a noncertified sweeper
- Expand service area
- Increase sweeping frequency
- Replace an older certified sweeper
- Sweeping cycle length
- Lane miles
- Average weekday traffic

- Detailed price estimate from vendor is required
- 5% Plan for PM-10 includes street sweepers
- Location & maps of where street sweeper will be used
- Sweeper fleet
- Federal, Local, and Total eligible costs for sweeper
- **Additional local costs - not eligible**
- Maintenance of Sweepers is agency’s responsibility for useful life of the vehicle.
- ADOT Policies and Procedures - Federal Property Management Standards, Section 8.07

- **Important: ADOT Approval Is Required Prior To Street Sweeper Disposals**

- Disposal requests are to be sent in writing to Dean Giles, MAG, and are to include:
  - Complete description of item to be disposed, reason for disposal, and manner of sale.
