MAG MOMENTUM 2050 Regional Transportation Plan Update Amendments

as of October 28, 2026

The MAG MOMENTUM 2050 Regional Transportation Plan (RTP) Update was approved by the MAG Regional Council on December 3, 2025. An air quality conformity analysis of the plan is required by federal regulations and was approved by the U.S. Department of Transportation on January 8, 2026. Long-range regional transportation planning is a continuing, cooperative, and comprehensive process. As a result, MOMENTUM 2050 is subject to periodic amendments.

Transportation Improvement Program Amendments

One of the most important sources of changes to the MOMENTUM 2050 plan is amendments to the MAG Transportation Improvement Program (TIP). The TIP, by definition, is an element of the RTP that describes in detail the projects and funding covering the early years of the RTP. As a result, any amendments to the TIP represent corresponding changes to the RTP. On December 3, 2025, the Maricopa Association of Governments (MAG) Regional Council approved the FY 2026-2030 MAG Transportation Improvement Program (TIP), and MAG Conformity Analysis. Actions by the MAG Regional Council to amend the FY 2026-2030 TIP are listed below by date. Details of these actions may be accessed on the MAG website at: https://azmag.gov/Committees/Policy-Committees/Regional-Council (see Past Meetings and Events).

Other Amendments to the Regional Transportation Plan

In addition to TIP changes and major amendments, the RTP may be revised in ways that do not constitute a major amendment but still represent an important alteration to the plan. Also, the RTP may be amended in concert with actions on other MAG planning programs. In the latter case, action to approve or amend a given plan or program also represents an associated amendment of the RTP. Other amendments to the RTP were approved by the MAG Regional Council at the meetings listed below. Details of these actions may be accessed on the MAG website at: http://www.azmag.gov/Committees/Policy-Committees/Regional-Council (see Past Meetings and Events).

January 28, 2026	(1) Update to Proposition 400 Arterial Life Cycle Program
May 27, 2026	(1) Approval of Fiscal Year 2027 Proposition 400 and Proposition 479 Freeway Life Cycle Programs, contingent on a finding of air quality conformity
