MARICOPA ASSOCIATION of GOVERNMENTS

FY 2026-2030 MAG Transportation Improvement Program (TIP)

December 3, 2025

This document was prepared in cooperation with the U.S. Department of Transportation, the Federal Highway Administration, and the Arizona Department of Transportation.

The Maricopa Association of Governments, the Metropolitan Planning Organization for the Phoenix, Arizona, urban area and the Arizona Department of Transportation hereby certify that the transportation planning process addresses the major issues in the metropolitan planning area and is being conducted in accordance with all applicable requirements of:

1. 23 USC 134, 49 USC 5303, and this subpart.
2. 23 CFR Part 230 as referenced in 23 CFR 450.334 (6)
3. Sections 174 and 176(c) and (d) of the Clean Air Act, as amended (42 USC 7504, 7506 (c) and (d) and 40 CFR Part 93.
4. Title VI of the Civil Rights Act of 1964, as amended (42 USC 2000d-1) and 49 CFR Part 21.
5. 49 USC 5332 prohibits discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity.
6. Section 1101(b) of the SAFETEA-LU (Pub. L. 109-59) and 49 CFR Part 26 regarding the involvement of disadvantaged business enterprises in U.S. DOT-funded projects.
7. The provisions of the Americans with Disabilities Act of 1990 (42 USC 12101 et seq. and 49 CFR Parts 27, 37, and 38).
8. The Older Americans Act, as amended (42 USC 6101), prohibits discrimination on the basis of age in programs or activities receiving financial assistance.
9. Section 324 of title 23 USC regarding the prohibition of discrimination based on gender.
10. Section 504 of the Rehabilitation Act of 1973 (29 USC 794) and 49 CFR Part 27 regarding discrimination against individuals with disabilities.
11. Anti-lobbying restrictions found in 49 USC Part 20. No appropriated funds may be expended by a recipient to influence or attempt to influence an officer or employee of any agency, or a member of Congress, in connection with the awarding of any federal contract.

This report was funded in part through grant[s] from the Federal Highway Administration (FHWA) Federal Transit Administration (FTA), and/or U.S. Department of Transportation (USDOT). The contents of this report reflect the views and opinions of the author(s) who is responsible for the facts and accuracy of the data presented herein. The contents do not necessarily state or reflect the official views or policies of the USDOT, the Arizona Department of Transportation (ADOT), or any other state or federal agency. This report does not constitute a standard, specification or regulation.

Title VI Notice to the Public Maricopa Association of Governments

The Maricopa Association of Governments (MAG) hereby gives public notice that it is the policy of the agency to assure full compliance with Title VI of the Civil Rights Act of 1964, the Civil Rights Restoration Act of 1987, and related statutes and regulations in all programs and activities. Title VI requires that no person in the United States of America shall, on the basis of actual or perceived race, color, or national origin, be excluded from the participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity for which MAG receives federal financial assistance. Additional protections are provided in other federal and state statutes for discrimination based on religion, sex, disability, age, gender identity (as defined in paragraph 249(c)(4) of Title 18, United States Code) or sexual orientation.

Any person who believes they have experienced discrimination under Title VI has a right to file a formal complaint with MAG. Any such complaint must be filed with MAG's Title VI Coordinator within 180 days following the date of the alleged discriminatory occurrence.

Complaints should, at a minimum, include the following information:

- Your name and address, and a number at which you can be reached during business hours
- A general description of the person(s) injured by the alleged discriminatory acts
- A description of the alleged discriminatory act(s) in sufficient detail to enable the Title VI Coordinator to understand what occurred, when it occurred, and the basis of the alleged discrimination complaint (race, color, national origin, etc.)
- The letter must be signed and dated by the person filing the complaint or by someone authorized to do so on his or her behalf.

For more information, or to file a complaint, please contact the MAG Title VI Coordinator at (602) 254-6300.

1- Introduction

The Maricopa Association of Governments (MAG) is the designated metropolitan planning organization (MPO) and council of governments (COG) in the Phoenix metropolitan area. MAG provides a forum for local governments to work together on issues that affect residents on a regional level, including transportation planning, air quality, wastewater, solid waste management, and human services. MAG members include the region's 27 incorporated cities and towns, Maricopa County, Pinal County, the Fort McDowell Yavapai Nation, Gila River Indian Community, the Salt River Pima-Maricopa Indian Community, and the Arizona Department of Transportation.

As the MPO, MAG is responsible for developing the long-range Regional Transportation Plan (RTP), known as MOMENTUM 2050, Regional Strategic Transportation Infrastructure Investment Plan (RSTIIP), and Transportation Improvement Program (TIP). An RTP is a document that sets forth a regional vision for transportation; it serves as a long-term blueprint, guiding investments into our transportation system now and into the future. The RSTIIP was first developed on June 23, 2021, and provides the regional funding policy, including the funding programs for freeway, highway, major arterial street, and public transportation system elements. A TIP is a more detailed listing of near term regionally significant projects and serves as the upcoming five years of the long-range RTP.

The TIP is inclusive of all surface transportation projects in the MAG planning area that are federally funded or that require federal action, capital projects that receive funding from the half-cent transportation excise tax levied in Maricopa County, and projects in the planning area that are shown to conform to air quality requirements regardless of funding source.

The Fiscal Year (FY) 2026-2030 TIP aims to achieve the following:

- Describe the relationship between the RTP, RSTIIP, and the TIP, focusing on how the investment priorities developed in the plan drive the TIP.
- Explain the programming decision-making process with an eye toward encouraging the participation of all interested parties in that process.
- Provide a map-based assessment of the TIP for traditionally disadvantaged communities.
- Provide a status update on major projects included in the previous TIP and list new major projects included for this version of the TIP.
- Describe the process for incorporating performance data and targets, and other technical evaluation information used in the selection of projects for the TIP.
- Detail the financial basis of the TIP and examine the relationship of programmed costs and revenues.

Changes from the Fiscal Year (FY) 2025 - 2030 TIP

The FY 2026-2030 version of the TIP contains the following changes from the FY 2025 – 2030 TIP.

- Updated the Table of Contents to reflect changes.
- Updated language in the document to reflect minor changes and updated hyperlinks.
- Updated the Program and Project Assessment and Financial sections with revised data.
- Updated Major Projects section to indicate completed continuing from the 2025-2030 TIP and new projects.
- Updated project listings to reflect the new TIP window of 2026-2030.

2- Regional Transportation Plan

The Regional Transportation Plan (RTP), MOMENTUM 2050, was developed consistent with state and U.S. Department of Transportation (USDOT) metropolitan transportation planning requirements. The Federal Transit Administration (FTA) and Federal Highway Administration (FHWA) jointly administer the requirements for transportation plan processes in metropolitan areas. These federal requirements ensure consideration is given to key transportation factors throughout the planning process.

MOMENTUM 2050 utilized a federally required performance-based planning process. Performance-based planning and programming increases accountability and transparency and provides a framework to support improved decision making by focusing on performance outcomes that drive towards transportation goals.

The Code of Federal Regulations (CFR) identifies the following basic requirements that an RTP must meet:

- Assess the needs of all system users, including drivers, transit users, pedestrians, and bicyclists.
- Be developed through a robust public engagement process involving citizens, elected officials, public agencies, and other key stakeholders.
- Include a variety of strategies, programs, and projects to best address the identified needs.
- Include both a short-term element (minimum of four years) and a long-term element (minimum of 20 years).
- Be fiscally constrained, meaning that projected revenues from reasonably available sources will be sufficient to cover the costs of our plan.
- Address all federally required performance measuring and monitoring requirements.
- In regions which do not meet or are in maintenance for federal air quality standards, the plan must result in a transportation system which does not produce emission levels above specified amounts.

Regional Transportation Plan Goals

Developing goals is an important early step in the development of an RTP. Goals help articulate the region's priorities and provide guidance toward selecting projects to best meet regional needs. Goals also provide a basis for decision making throughout the planning process, helping to shape future investment priorities that will advance the regional transportation vision. The six regional goals identified in MOMENTUM 2050 include:

Safety: Provide for the safety and security of pedestrians, bicyclists, riders and drivers.

Mobility: Ensure ease of movement for people and goods throughout the region, providing fair and appropriate access to essential services and destinations.

Prosperity: Support economic competitiveness and growth through strategic transportation investments.

Responsiveness: Expand travel choices that accommodate future growth and are flexible in adapting to changing needs and innovations.

Livability: Invest in a transportation system that supports health and well-being and sustains the environment.

Preservation: Maintain our region's transportation infrastructure to protect existing investments for the future.

Regional Funding Policy, RSTIIP and the TIP

On June 23, 2021, the MAG Regional Council approved the Regional Strategic Transportation Infrastructure Investment Plan (RSTIIP), which replaced the Regional Transportation Plan (RTP) as the document that houses the region's funding policy. Conforming changes to the RSTIIP per requirements set forth in Senate Bill (SB) 1102 were unanimously approved by MAG Regional Council on September 27, 2023.

The RSTIIP includes the freeway and highway, major arterial street, and public transportation system elements that had first been identified in the 2003 RTP and subsequently funded as part of the dedicated half-cent sales tax in Maricopa County.

The dedicated half-cent sales tax was first established by voters in 1985 with the approval of Proposition 300, and subsequently renewed as Proposition 400 by voters in 2004, which is in effect through 2025. The most recent extension, Proposition 479, was approved by voters on November 5, 2024. This 20-year extension spans from January 1, 2026, through December 31, 2045.

It is important to note that Propositions 400 and 479 apply only to the Maricopa County portion of MAG and all expenditures related to these propositions are on projects within Maricopa County.

The TIP covers the first five years of the long-range RTP, which extends to 2050. Both the TIP and the RSTIIP are inclusive of all funding sources available to the region. As part of the planning process to develop MOMENTUM 2050, specific consideration was given to those funding sources the region manages through MAG's planning and programming process. These funds include the Maricopa County dedicated transportation excise tax, FHWA formula funds, FTA formula funds, and state Highway User Revenue Fund (HURF).

General funding categories included in the TIP and RSIITP are:

- FHWA and FTA. This category includes both formula funding allocated to ADOT and MAG, as well as awarded discretionary funding;
- HURF;
- Maricopa County dedicated transportation sales tax;
- Pinal County/RTA sales tax – dependent upon voter approval of a county-wide sales tax; and
- Local and private funds.

Additional information on the regional revenue sources can be found in the Transportation Programming Guidebook.

Proposition 400/479 Life Cycle Programs

As part of state statutes guiding Maricopa County's dedicated half-cent sales tax for transportation, revenue is allocated to highways/freeways, transit, and arterial streets. Other revenue sources available to the region are also allocated to these modes, and each is managed through a life cycle concept whereby projected expenditures are kept in balance with anticipated revenues over the term of the sales tax horizon.

The three Proposition 400/479 life cycle programs are the Arterial Life Cycle Program (ALCP), Freeway Life Cycle Program (FLCP), and Transit Life Cycle Program (TLCP). Each of these programs include major projects that span the life of the respective propositions' funding horizon and enter the TIP when program years coincide with the TIP period. Funding balances are monitored periodically and account for inflation. This reflects federal regulations, which require that cost amounts be in year of expenditure dollars (YOE). If funds are insufficient for a project in a life cycle program, the project may be deferred to later years for further consideration, pending available funding. A brief synopsis of each program is detailed below:

ALCP – includes most major publicly-funded roadway projects identified in Proposition 400 and 479 located in Maricopa County and constructed by local governments.

FLCP – includes all major capital projects on the State Highway System within Maricopa County.

TLCP – includes all light rail and streetcar projects and most major bus capital projects.

Non-Life Cycle Programs

In addition to the life cycle programs, the TIP includes other project funding sources awarded through direct funding allocations or competitive selection processes. These include:

Transportation/Nonmotorized Infrastructure – pedestrian and bicycle facility improvements.

Air Quality – trip reduction and dust control project programs.

Freeway – projects on the State Highway System funded through ADOT and not included as part of the FLCP.

Intelligent Transportation Systems – projects that coordinate traffic signals and manage responses to traffic conditions.

Safety – transportation safety improvements.

Transit – transit and paratransit capital and operations outside the TLCP, funded primarily from federal transit funds and local match.

Pinal Area Major Projects

The Pinal County portion of the MAG planning area includes major projects that are implemented through ADOT's Five-Year Transportation Facilities Program. Work is carried out in cooperation with other planning agencies, including the Central Arizona Governments (CAG), Sun Corridor Metropolitan Planning Organization (SCMPO) and the Pinal Regional Transportation Authority (RTA). Both CAG and SCMPO border the MAG planning area and share air quality nonattainment areas.

Local and Native Nation Plans

Plans of local and Native nations incorporated in the TIP and RTP include land use development and localized transportation. MAG provides travel demand modeling and technical assistance as requested. Plan development is monitored closely by MAG to ensure planned improvements are reflected in transportation networks, that projects are included in the TIP, and that implementing agencies provided assurance of adequate funding for completion and future maintenance and operation.

3-Transportation Improvement Program

Transportation Improvement Program Overview

MAG has the responsibility, under Title 23, Section 134 and Title 49, Section 53 of the United States Code (U.S.C.), to develop a TIP that is consistent with the RTP. The TIP must reflect the investment priorities outlined in the plan and be designed to make progress toward achieving identified performance targets.

The TIP provides for the development and operation of transportation systems and facilities that function as an intermodal transportation system for the area. Under federal legislation, MAG is responsible for preparing the TIP in cooperation with the state department of transportation, transit operators and local governments.

Under federal regulations, the TIP must be consistent with the RTP and incorporate all federally funded and regionally significant projects regardless of funding source. The TIP project listings, included in Appendix D, describe each project, including:

- Implementing agency
- Project location
- Roadway classification
- MAG mode
- Open to traffic/date of completion
- Air quality area
- MAG program category
- Project length and lanes (before/after)
- Performance measure category (as needed)
- Multimodal elements (as appropriate, including performance identifiers)
- Work description
- Apportionment year and work year
- Amounts and sources of federal funds
- Amounts and sources of non-federal funds
- Project Identifiers (MAG ID, STIP ID, Federal ID/ Grant ID, TRACS/ALI)

The process for including a project in the TIP varies depending on the programmatic category. Projects that are part of a defined life cycle program have specific steps to be included in the TIP. Additional projects in the TIP are programmed through a regionally competitive call for projects. Those projects are evaluated through the appropriate technical committee, who then makes recommendations to MAG policy committees before consideration by the MAG Regional Council. Regionally significant projects that do not use suballocated funding are excluded from these processes.

Federal regulations require the TIP be updated at least every four years and cover a minimum four-year period. MAG typically produces a new TIP every other year and outlines federal transportation programming for the subsequent period. Amendments to the TIP are processed throughout the calendar year.

Regionally Significant Projects

In accordance with 23 CFR 450.326(f), the TIP is required to contain all regionally significant projects requiring an action by FHWA or FTA regardless of funding source. The TIP is also required to include all regionally significant projects that are funded with federal funding not provided by FHWA or FTA. MAG extends a regionally significant project to include:

- Roads that serve regional transportation needs (e.g. urban freeways, other urban or rural principal arterials, roads on the one-mile grid street network and extensions thereof), are greater than one-half mile in length, or are on a freeway or freeway ramp.
- Roadways that carry traffic over or under a freeway at an interchange or would alter the number of striped through-lanes available for motor vehicle use.

TIP Approval Process

MAG develops the TIP by working cooperatively through its committee structure as shown in Figure 3-1. MAG policy and technical committees include representatives from local jurisdictions, public transportation agencies, Native nations, ADOT, and in some cases, private and not-for-profit entities. Committee members are typically appointed by each participating jurisdiction or state agency and provide input for various documents and recommendations for federally funded projects. Final authority for the adoption of the TIP rests with MAG's Regional Council.

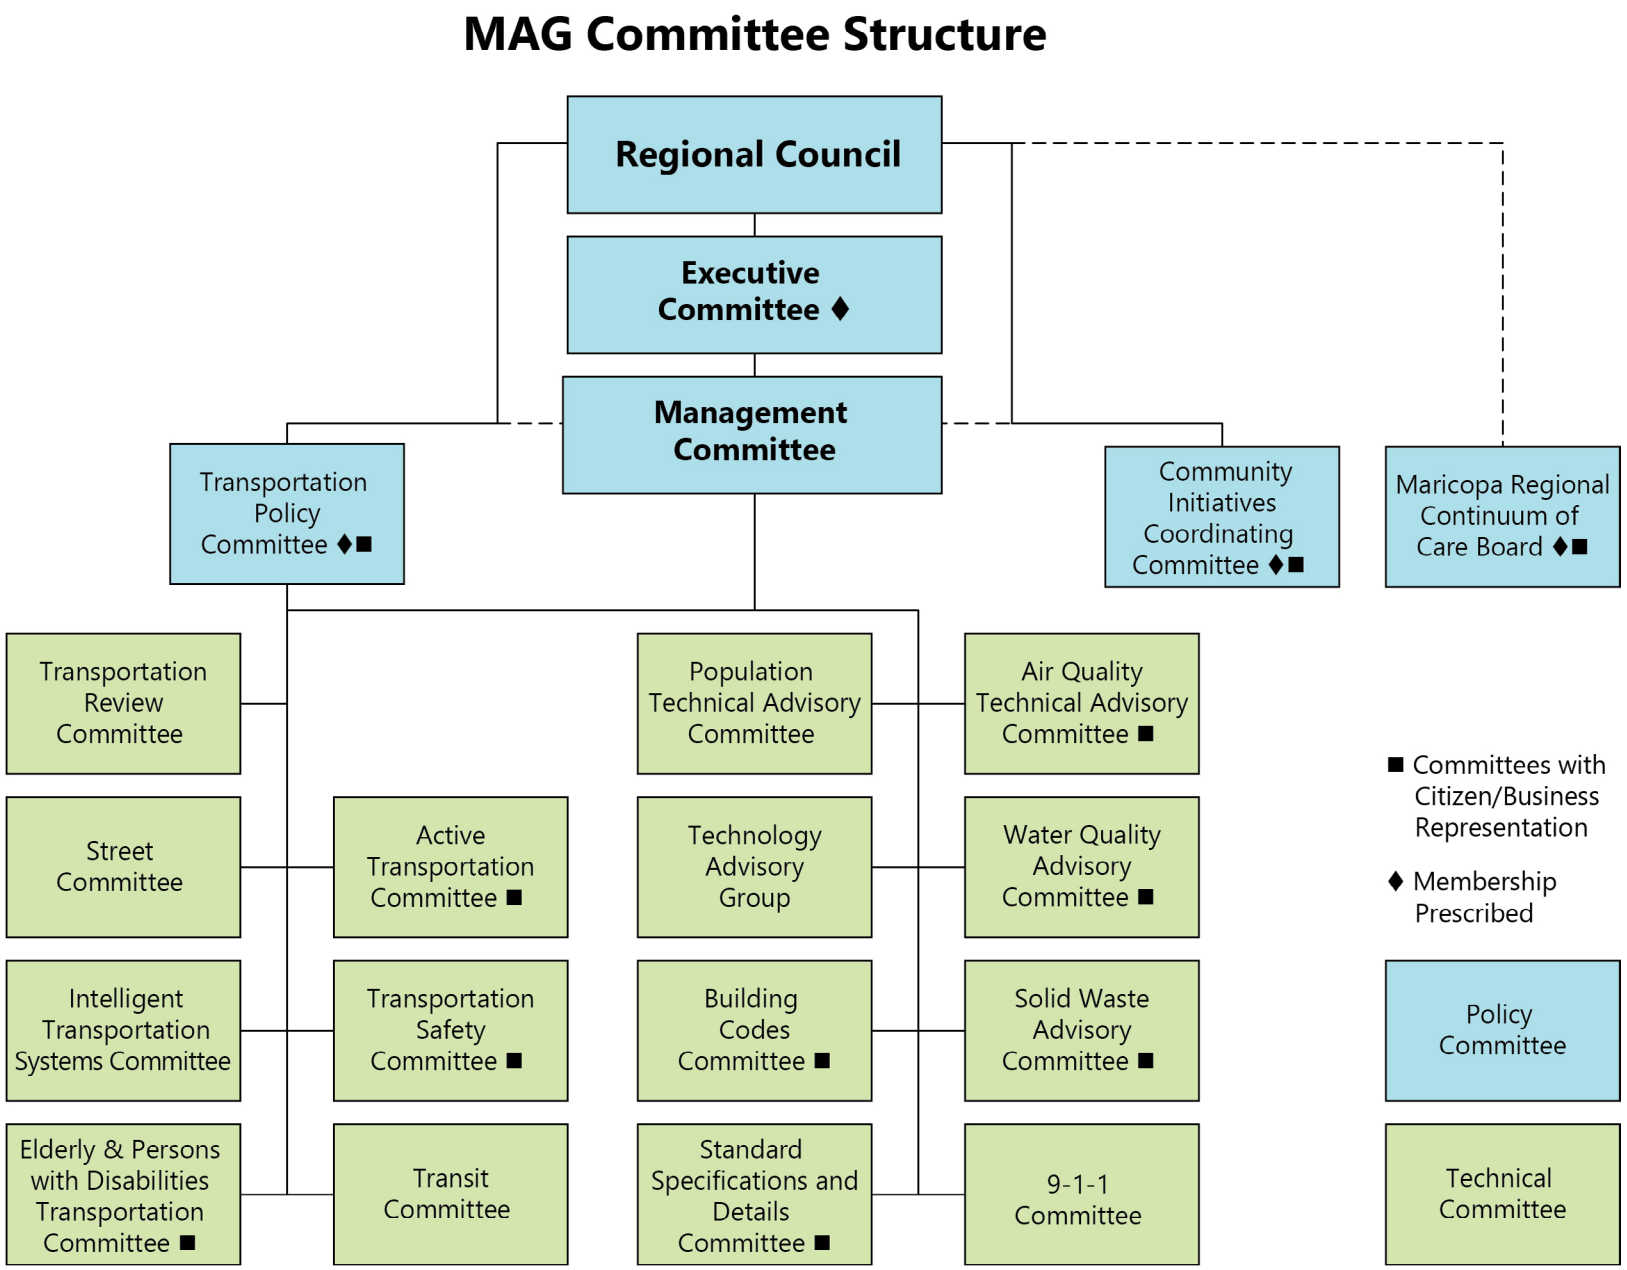
The three policy committees that have specific roles relative to the RTP, RSTIIP and TIP are outlined below:

1. The MAG Management Committee consists of the chief administrators from each member agency, the director of the Arizona Department of Transportation and the chief executive officer of the Regional Public Transportation Authority. The Committee is responsible for receiving input from technical committees, analyzing the technical and policy implications, and providing recommendations to the MAG Regional Council.

2. The Transportation Policy Committee (TPC) is responsible for the development of the RTP and finding transportation solutions that best address the diverse transportation needs of the region. The MAG Regional Council established the TPC to advise on transportation matters, including material changes or amendments to the RTP and TIP; TPC and its responsibilities were later codified in state statute. TPC is a public/private partnership comprised of 26 members, including a cross section of MAG member agencies and ADOT; private sector representatives are appointed by the state legislature from businesses with a regionwide interest in transit, freight, and construction interests.

3. The MAG Regional Council is the ultimate approving body for policy decisions in the MAG region; changes to the RTP or funded projects that affect the TIP must be approved by the MAG Regional Council. The committee consists of elected officials from each member agency. Maricopa County representatives from the State Transportation Board also sit on the Regional Council but only vote on transportation-related issues. MAG policy and technical committees provide technical analysis and information to the MAG Regional Council to aid in decision making.

Figure 3–1: MAG Committee Structure



Technical committees provide technical input for specific program areas and have specific responsibilities for reviewing and scoring projects through competitive application programs.

In accordance with state law, all meetings are open to the public with all meeting material posted online in advance of the meeting. Public comments received before meetings are conveyed to committee members and members of the public have an opportunity to comment on action items during the meeting.

TIP Updates

MAG member agencies play a critical role in providing information for transportation projects that are included in the TIP, RSTIIP, and RTP. To comply with all applicable air quality plans, regulations, and laws, and to ensure projects are completed timely, all federally funded, and regionally significant projects need to be accurately represented in the TIP. Projects missing from the TIP—or where there is a substantial change from the TIP listing to the actual project location, scope, or year to be authorized—will result in a denial by the appropriate federal authorities to commit federal funding. All funding expended on a project prior to this commitment is not eligible for federal reimbursement.

During project development, project changes are required to be reflected in the TIP. These changes may require a TIP amendment. In addition to TIP amendments, some types of project changes may affect the transportation and air quality modeling assumptions made for the most recent regional emissions analysis on the TIP, RSTIIP, and RTP and require a new conformity determination. Examples of project changes that would require a new conformity determination include:

- The addition or deletion of a regionally significant road or transit project.
- Changes to the design scope of a regionally significant road or transit project (e.g., changes to the length of project or the number of striped through-lanes).
- Changing the completion date of a project that results in a change to the planned transportation network(s) used for the regional emissions analysis.

MAG maintains a Project Change Form on the TIP page of the MAG website for member agencies to request project changes. The types of changes to request include the following:

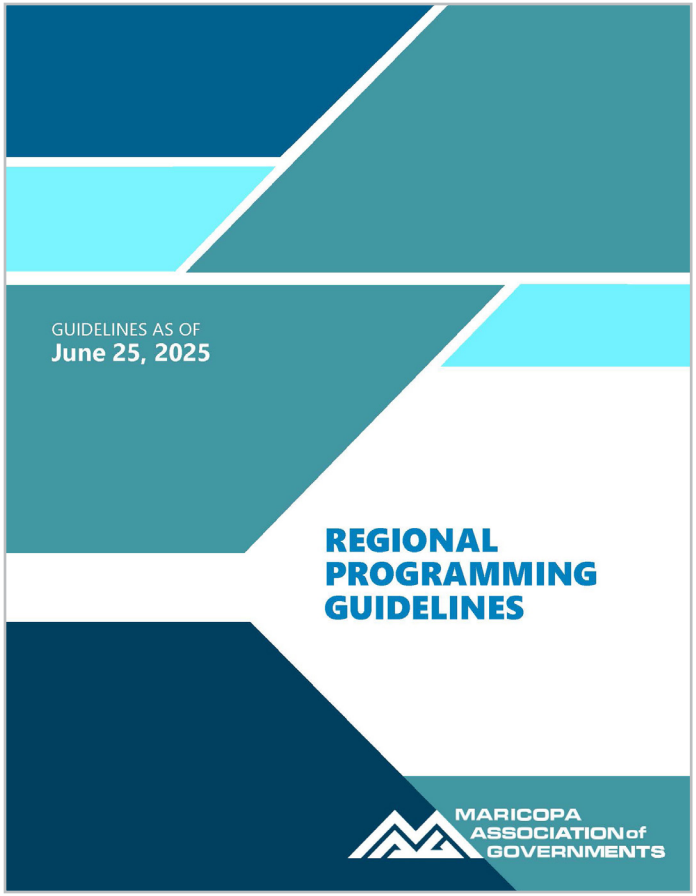
- Adding new federally funded or regionally significant projects to the TIP.
- Deleting existing federally funded or regionally significant projects from the TIP.
- Changes to the following items listed for federally funded or regionally significant projects in the TIP: year programmed, project location, project work description, length of the project, number of through lanes before the project is completed, number of through lanes after the project is completed, and/or source and amount of funding.
- Adding non-federally funded phases for federally funded or regionally significant projects to the TIP.

MAG has three different TIP update processes as described on the following pages in ascending order of magnitude.

TIP Update – Clerical Change

The simplest process is a clerical change to the TIP. Consistent with the MAG Regional Programming Guidelines (subsequently referred to as the Guidelines) last approved by the MAG Regional Council on June 25, 2025, these TIP changes can be made directly to the appropriate state and federal authorities. A clerical correction cannot impact air quality conformity analysis for the TIP or RTP. A clerical change includes:

- Corrections of spelling and grammatical errors.
- Changes to informational elements in TIP listings (i.e., cannot affect scope, location, programming year, sponsor, funding amounts or project information).



TIP Update – Administrative Amendment

Per the Guidelines, an administrative amendment is any TIP change that typically would be sent to MAG Regional Council for approval but is not explicitly required. These amendments include:

- Decreases in federal or regional funding.
- Changes to the type of federal funding on a project.
- Changes to the amount of funding associated with required federal matches.
- Splitting or combining projects.
- Changes to noninformational elements in TIP listings (i.e., cannot affect scope, location, programming year, sponsor, funding amounts or project information).

TIP Update – TIP Amendment

A TIP amendment is any TIP change that requires Regional Council approval and is consistent with FHWA/FTA definitions. These include:

- Changes to the project sponsor.
- Changes to the year programmed.
- Changes to the location or work description.
- Increases in either the federal or regional funding.
- Any action that would impact the air quality conformity analysis of either the TIP, RSTIIP or RTP.
- Revision of funding for project phases; additional funding is limited to the lesser of 25 percent of the total project cost or $5 million.

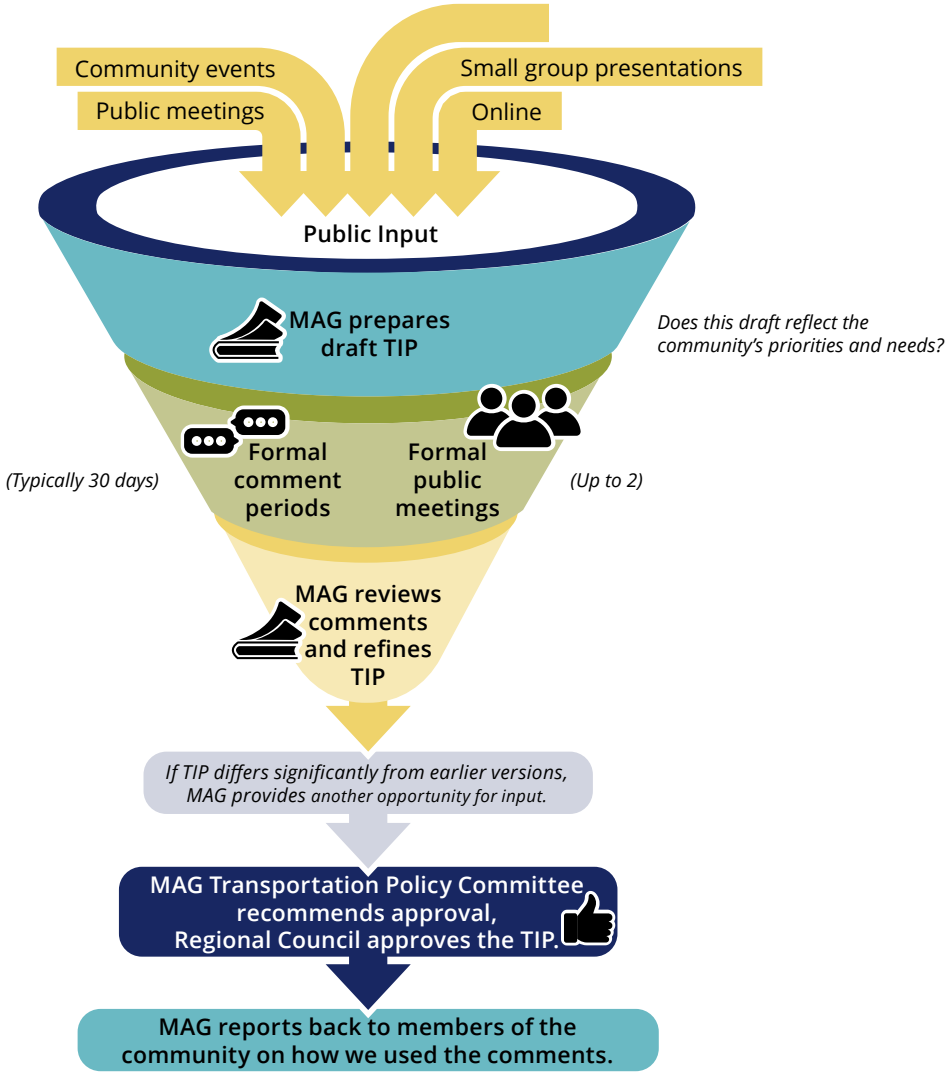
4- Public and Affected Party Participation

Public Participation Plan & TIP Development

The MAG Public Participation Plan is required by federal regulation and was last updated in August 2023. Public participation ensures involvement of the community during the development of transportation plans and programs and leads to projects that meet the wide-ranging needs of residents.

When developing a new TIP, MAG conducts additional public outreach activities. Figure 4-1 illustrates the public outreach and engagement process. MAG consults with agencies and officials responsible for other planning activities within the MAG planning area affecting transportation, including planned growth, economic development, tourism, natural disaster risk reduction, environmental protection, airport operations, or freight movements, and coordinates its programming process to the maximum extent practicable.

Figure 4–1: Public Outreach and TIP Development



Consistent with 23 C.F.R. 450.326(b) and MAG's Public Participation Plan, a 30-day public comment period is held prior to MAG Regional Council adoption of the new TIP.

MAG adheres to the many federal requirements for public involvement in transportation planning, which focus on timely public notice, full public access to key decisions, and opportunities for early and continuing involvement in planning processes. The public notice of public participation activities and time established for public review of and comments on the TIP will satisfy the Program of Projects requirements.

Public feedback is considered and may result in modifications to the TIP. If modifications are significant, MAG provides another opportunity for public input prior to adoption of the final TIP by the MAG Regional Council. Staff convey comments to the Regional Council and a public comment summary report is provided at the meeting. The public comments received during the public comment period are included as part of the public input report.

TIP Amendments and Public Participation

Public participation also is encouraged throughout the timeframe of the TIP. Members of the public have the opportunity to comment on agenda items at committee meetings, including proposed amendments to the TIP. The public also may provide comments online at azmag.gov/comment. Comments must be received at least two hours prior to the posted start time for the meeting. Comments received by the deadline are provided to members of the committee in advance of the meeting for consideration.

MAG takes the information received and transmits it to each subsequent committee in the process, culminating with the MAG Regional Council. Information conveyed includes:

- Summaries of prior committee comments, votes, and actions.
- Results of interagency consultation and direct contacts.
- Summaries of public and affected party input received at meetings.

Committee meetings are held on workdays between 8 a.m. and 5 p.m. at the MAG offices in downtown Phoenix, located at 302 N. First Avenue. The offices are adjacent to the regional transit center and MAG provides both parking validation and transit tickets for members of the public who wish to attend meetings in person. Per federal requirements, special accommodations are available for people with disabilities. Some accommodations, such as American Sign Language interpreters, are available with advanced notice. Meetings may be conducted virtually, or as a hybrid in-person/virtual meeting. Meeting details are provided with each meeting agenda.

Members of the public also are encouraged to submit comments online, or they may contact MAG staff directly by phone or email to provide comments. MAG summarizes and transmits comments received to the appropriate staff and/or committees.

In addition to MAG's formal Public Participation Plan and TIP development process, MAG conducts additional public outreach opportunities. Throughout the year, MAG offers project specific input opportunities that can include open houses, public meetings, virtual opportunities, and presentations. MAG also facilitates online community feedback surveys, uses social media to inform and solicit feedback, and leverages local media. MAG strives to meet and exceed the requirement of Title VI of the Civil Rights Act and the Americans with Disabilities Act, to provide participation opportunities for groups who have historically had limited access to the public process.

Interagency Consultation

The MAG committee structure ensures that applicable government agencies and transit providers are consulted on changes to the TIP. Additionally, the Transportation Policy Committee includes six appointed representatives from the business community, with interests representing freight, transit and the construction industry. Beginning in fiscal year 2024-2025, the committee also includes five additional members. Two members representing unincorporated areas, a taxpayer organization, residential housing, and resiliency interests.

Prior to TIP amendment approval, MAG conducts consultation with interagency partners, including resource and environmental agencies. A report on this consultation is provided to the Regional Council prior to action.

5-Title VI Program

Title VI Activities

Title VI activities are required components in the metropolitan planning process and are used to ensure that people of all races, colors, national origin, and income levels have an equal voice in the planning process and receive equal benefits from the results of such planning. Additional protections are provided in other federal and state authorities for individuals with limited English proficiency, income status, religion, sex, disability, sexual orientation, gender identity (as defined in paragraph 249(c)(4) of title 18, U.S.C.), and age.

MAG is actively engaged in Title VI activities as a subrecipient of federal funding. The MAG Title VI Program approved by the MAG Regional Council in June 2025 sets forth the process to fully integrate the needs of these vulnerable populations.

The activities listed in the Title VI Program respond directly to the guidance provided by the FTA in Circular 4702.1B. Chapter six of the circular charges MPOs, such as MAG, with the development of a demographic profile identifying the locations of Title VI groups and a planning process that identifies the transportation needs of people with low incomes and minority populations. It also requires an analytical process that identifies the benefits and burdens of transportation system investments for different socioeconomic groups, identifies imbalances, and responds to the analysis produced.

The goals of these activities are as follows:

- Comply with the public involvement requirements of the federal and state regulations.
- Avoid, minimize, or mitigate disproportionately high and adverse human health and environmental effects, including social and economic effects, on minority populations and low-income populations.
- Provide specific opportunities for the public and community-based organizations to discuss their views and provide input on the subject areas addressed in the planning activities of MAG.
- Ensure full and fair participation by all potentially affected communities in the transportation decision-making process.
- Inform the public about ongoing MAG planning activities, and their potential role in those activities.

Title VI in the TIP

The TIP reflects the agreed-upon list of priority projects for the region. MAG is mandated to ensure nondiscrimination in all of its programs and projects, including the TIP.

Federal guidance provides that:

- All transportation agencies must strive to offer the opportunity for people to be meaningfully involved in the development of transportation plans.
- All persons shall experience an equitable distribution of benefits and costs from transportation projects, programs, and policies.
- A person or population group should not be denied the benefits of the TIP.
- Agencies should avoid, minimize, or mitigate disproportionate burdens (high and adverse impacts) resulting from a program or project, especially for minority and other protected populations.

Nondiscrimination Complaint Procedure

The intent of MAG's Title VI work is to preclude discrimination and ensure all people have a voice in the planning process. If someone perceives they have suffered from discrimination, they are encouraged to address the matter with the Title VI Coordinator. According to 49 CFR § 21.9(b), complaints may be filed if the matter cannot be resolved. Complaints that fall under MAG's Nondiscrimination Policy and not under Title VI, such as gender identity, sexual orientation, and religion, will be reported to and investigated by the pertinent authorities. This process applies to MAG and its subrecipients.

Communities of Concern

MAG actively pursues an analytical process to identify the benefits and burdens of transportation system investments for different socioeconomic groups. Communities of concern are populations that have been determined by the federal government or the MPO as benefiting from protections to ensure their meaningful involvement in planning and services and are identified as census block groups where an identified group represents a percentage of the population equal to or greater than that of the average. The threshold for the population with limited English proficiency (LEP) population follows federal guidance at five percent or 1,000 people, whichever is less. Based on the 2019 to 2023 American Community Survey (ACS) five-year estimates, the thresholds for the following communities of concern are as follows:

- Minority population: 46.2 percent or higher.
- Population in poverty: 11.1 percent or higher.
- Disability: 12.1 percent or higher.
- Limited English proficiency: 5 percent or 1,000 people, whichever is less.

The U.S. Census Bureau is the source of data use (see Title VI plan page 15).

The maps included in Appendix A show the location of programmed major capital projects and bus route changes relative to the populations identified above. A major capital project is federally defined as a project with a total cost of $500 million or more. In this report, a lower threshold of $200 million is used to provide a broader review of projects that significantly affect the region. Bus route changes are managed by Valley Metro, the region's public transit agency. Bus route changes are included in Valley Metro's Short Range Transit Program as well as the Transit Life Cycle Program.

MAG strives to use a performance-based planning and programming approach in making transportation investment decisions.

6- Program and Project Assessment

Figure 6–1: Planning and Programming Approach

As illustrated in Figure 6-1, the approach is an iterative process using data derived from studies, modeling, and data collection programs to establish goals and objectives. Once established, a data-driven approach is used to prioritize and select projects. MAG, ADOT, and local agencies continuously collect transportation data to evaluate projects, monitor progress in achieving goals, and update goals and targets as appropriate.

This section of the TIP addresses the use of performance-based planning and programming principles in project selection, the setting of performance targets (or benchmarks) to assess progress in achieving goals, and the current performance of the transportation system in the region.

Goals and Performance Targets

MAG utilizes a federally required performance-based planning process. Performance-based planning and programming increases accountability and transparency and provides a framework to support improved decision making by focusing on performance outcomes that drive toward transportation goals.

Federal statute establishes national transportation goals and a framework for developing and updating transportation performance targets. Table 6-1 summarizes the relationship between national and regional goals and transportation performance measures.

Table 6–1: National and Regional Goals related to Performance Targets

Targets Area	Targets Performance Measures	Regional Goals	National Goals
PM-1: Safety Performance	S1: Number of Fatalities S2: Fatalities per 100 Million Vehicle Miles Traveled S3: Number of Serious Injuries S4: Serious Injuries per 100 Million Vehicle Miles Traveled S5: Number of nonmotorized Fatalities and Serious Injuries	**Safety:** Provide for the safety and security of pedestrians, bicyclists, riders and drivers.	**Safety:** To achieve a significant reduction in traffic fatalities and serious injuries on all public roads.
PM-2: Bridge and Pavement Condition	Percent of interstate pavements in good condition Percent of interstate pavements in poor condition Percent of non-interstate NHS pavements in good condition Percent of non-interstate NHS pavements in poor condition Percent of NHS bridges classified as in good condition Percent of NHS bridges classified as in poor condition	**Preservation:** Maintain our region's transportation infrastructure to protect existing investments for the future.	**Infrastructure Condition:** To maintain the highway infrastructure asset system in a state of good repair.
PM-3: System Reliability	Travel Time Reliability - Interstate System Travel Time Reliability - Non-Interstate NHS Peak Truck Travel Time Reliability Index Peak Hour Excessive Delay Per Capita Percentage of Non-SOV Travel	**Mobility:** Ensure ease of movement for people and goods throughout the region, providing equitable and appropriate access to essential services and destinations.	**Congestion Reduction:** To achieve a significant reduction in congestion on the National Highway System. **Freight Movement and Economic Vitality:** To improve the national freight network, strengthen the ability of rural communities to access national and international trade markets, and support regional economic development. **System Reliability:** To improve the efficiency of the surface transportation system.
Transit Asset Management (TAM)	Percentage of revenue vehicles that have met their useful life benchmark Percentage of service vehicles that have met their useful life benchmark Percentage of facilities below 3 on condition scale Percentage of guideway under performance restriction	**Responsiveness:** Expand travel choices that accommodate future growth and are flexible in adapting to changing needs and innovations.	**Congestion Reduction:** To achieve a significant reduction in congestion on the National Highway System. **System Reliability:** To improve the efficiency of the surface transportation system.
Public Transportation Agency Safety Plans (PTASP)	Rate and Number of Fatalities Rate and Number of Injuries Rate and Number of Safety Events Average Miles Between Failures	**Safety:** Provide for the safety and security of pedestrians, bicyclists, riders and drivers.	**Safety:** Provide for the safety and security of pedestrians, bicyclists, riders and drivers. **System Reliability:** To improve the efficiency of the surface transportation system.
To be Defined		**Livability:** Invest in a transportation system that supports health and well-being, and sustains the environment. **Prosperity:** Support economic competitiveness and growth through strategic transportation investments.	

PM-1: Safety Performance

PM-1: Targets and Data

It is both a regional and national goal to reduce fatalities and serious injuries across our transportation system. ADOT has calculated the prescribed safety targets to help measure progress towards safety goals. For more detail on Arizona's approach, please see the Strategic Highway Safety Plan & Active Transportation Safety Action Plan (ADOT, 2024).

The targets are updated annually, and all safety targets are expressed as five-year rolling averages for all public roadways in Arizona. The approved safety targets are listed in Table 6-2.

Table 6–2: PM-1, Safety Performance Targets (State)

Target Measure	2025 Target
S1: Number of Fatalities	1,263.8
S2: Fatalities per 100 Million Vehicle Miles Traveled	1.665
S3: Number of Serious Injuries	3,729.6
S4: Serious Injuries per 100 Million Vehicle Miles Traveled	4.914
S5: Number of Nonmotorized Fatalities and Nonmotorized Serious Injuries	846.6

Notes: All targets are expressed as five-year rolling averages.

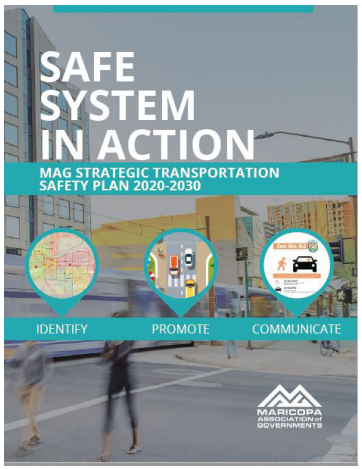
PM-1: Project Selection

In coordination with ADOT, MAG has developed a MAG Strategic Transportation Safety Plan for the region. This plan identifies regional priorities, strategies, resource needs, and performance indicators. It also establishes an approach for identifying and enacting solutions for road safety issues that affect agencies in the MAG region.

A major part of this approach includes Roadway Safety Assessments (RSAs). RSAs identify and recommend safety improvements. Based on data, projects from a recommended pool are funded for preliminary engineering – up to 15 percent design – to accelerate the implementation of safety improvements and enhance the selection of projects for MAG and state-selected federal safety funds.

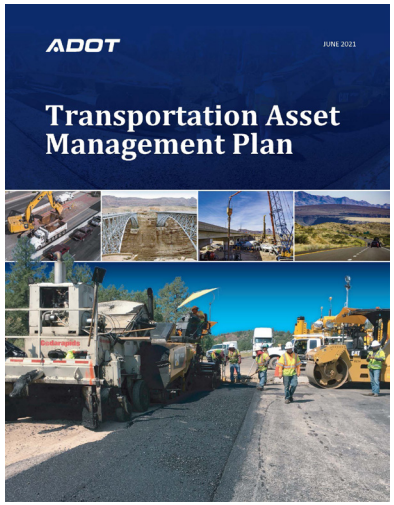
Current funded safety programs at MAG include:

- **Highway Safety Improvement Program (HSIP)** – This is a program of projects funded with federal HSIP funds. MAG coordinates the call for projects with its member agencies and submits applications on member agencies' behalf to ADOT for review and evaluation. Awarded projects are included in the TIP.
- **Safe Routes to School** – This program provides federal funding to address safety around schools.



PM-2: Pavement and Bridge Condition

PM-2: Targets and Data



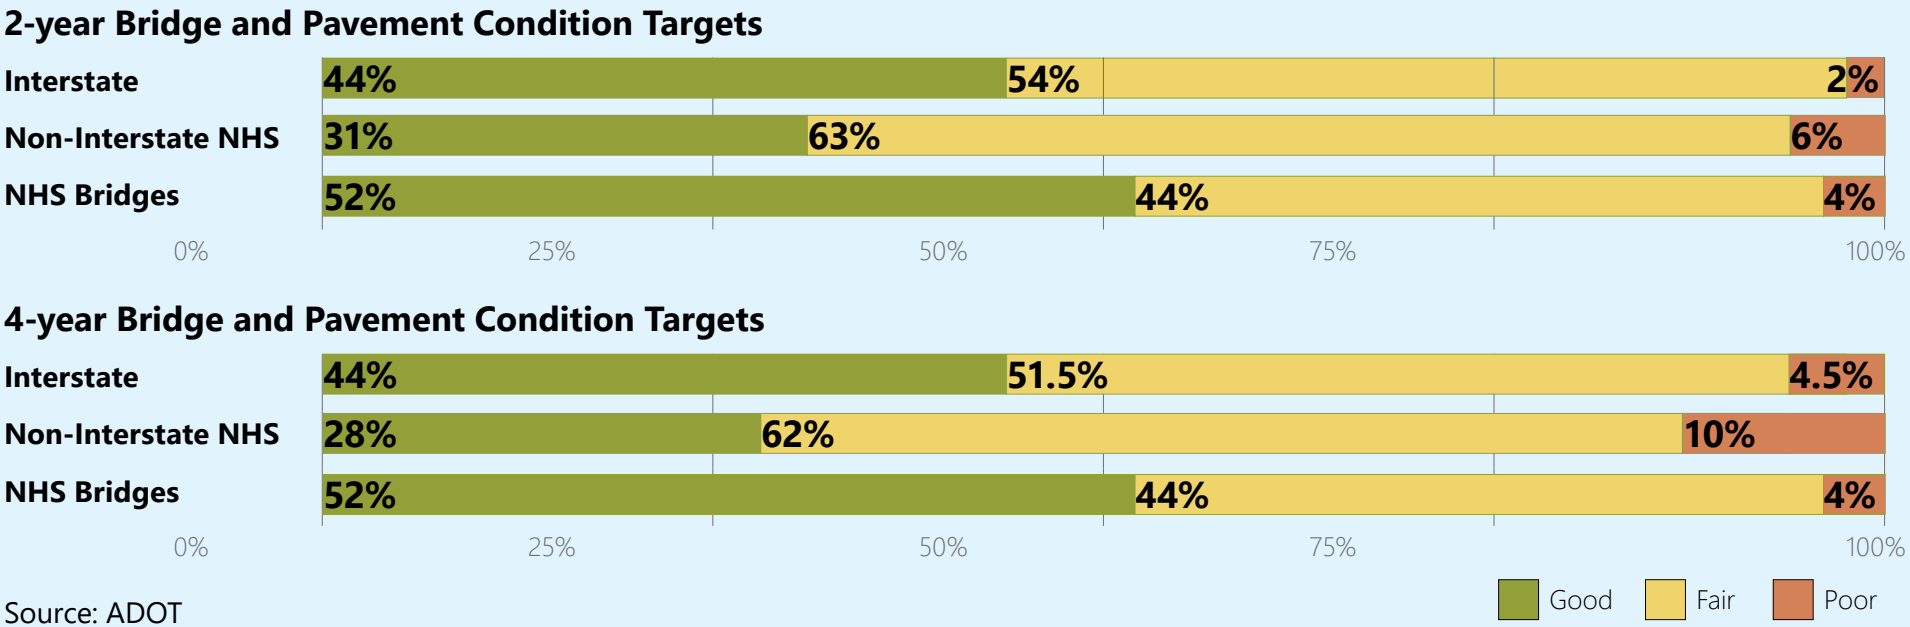
MAG has accepted the pavement and bridge targets and measures developed by ADOT. The Transportation Asset Management Plan (ADOT, June 2021) contains a detailed analysis of the ADOT pavement and bridge targets, measures, and asset management system. The last update of targets was approved by MAG Regional Council in February 2023.

Figure 6-2 provides the latest ADOT measures and targets, including the 2022 updates. The 2-year amounts reflect the 2024 targets and the 4-year numbers equate to the 2026 targets.

PM-2: Project Selection

The MAG TIP identifies all bridge and pavement projects on the National Highway System (NHS), regardless of funding source. Also, local member agencies that own NHS roadways are contacted to identify locally owned funded major pavement projects on the NHS.

Figure 6–2: PM-2, Bridge and Pavement Targets (State)



Source: ADOT

PM-3: System Reliability

In collaboration with ADOT, MAG's Transportation and Environmental Divisions developed methodology for and calculated several reliability and emission measures as part of PM-3.

PM-3: Targets and Data

Unlike PM-1 and PM-2, MAG has chosen to set specific targets for travel time reliability. The state's targets were used for Peak Hour Excessive Delay and Non-Single Occupancy Vehicle Travel.

Figure 6–3: PM-3, System Reliability Targets (State)

Measure	ADOT		Maricopa Association of Governments	
	2-Year Target	4-Year Target	2-Year Target	4-Year Target
Travel Time Reliability - Interstate System	81.00%	71.00%	64.28%	62.50%
Travel Time Reliability - Non-Interstate NHS	84.00%	77.00%	69.95%	67.00%
Truck Travel Time Reliability Index	1.37	1.48	1.75	1.91
Peak Hour Excessive Delay Per Capita (Phoenix-Mesa-Scottsdale UA)	7.5 Hours	8.0 Hours	7.5 Hours	8.0 Hours
Peak Hour Excessive Delay Per Capita (Phoenix West-Goodyear-Avondale UA)	4.5 Hours	5.4 Hours	4.5 Hours	5.4 Hours
Percentage Non-SOV Travel (Phoenix-Mesa-Scottsdale UA)	23.50%	24.00%	23.50%	24.00%
Percentage Non-SOV Travel (Phoenix West-Goodyear-Avondale UA)	21.00%	21.50%	21.00%	21.50%

*System Performance Report 2024 (MAG 2024).

The measures in Figure 6-3 are further defined as:

- Travel Time Reliability - Interstate System – The percentage of miles on the interstate system that are reliable.
- Travel Time Reliability - Non-Interstate NHS - The percentage of miles on non-interstate NHS facilities that are reliable.
- Freight Reliability on the Interstate - Produced from the National Performance Management Research Data Set, this target addresses the reliability of travel time for trucks on the Interstate system.
- Peak Hour Excessive Delay – This measure is the annual hours of excessive delay per capita on the NHS.
- Percent of Non-Single Occupancy Vehicle – This measure comes from American Community Survey data.

The System Performance Report 2024 provides a detailed analysis of congestion impacts on regional mobility. The system performance measures also include emission targets for specific pollutants. As the air quality planning agency for the region, MAG has developed targets reflected in Figure 6-4.

Figure 6–4: PM-3, Emission Reduction Targets (State)

Emissions Reduction Targets (kg/day)	NOx	VOC	CO	PM-10	PM-2.5
2-Year Target (FY2022-2023)	394	223	5,028	965	0
4-Year Target (FY2022-2025)	572	344	8,121	1,818	3

*Based on the System Performance Report 2024 (MAG 2024).

PM-3: Project Selection

In the TIP, all major projects are categorized in relationship to each performance target. All projects that expand roadway capacity on the NHS are included in the TIP.

Transit Asset Management

The Federal Statewide and Metropolitan Planning Rule states that an MPO shall establish performance targets no later than 180 days after the date on which the relevant state and/or provider of public transportation establishes performance targets. The MAG region has four transit provider agencies who are required to identify performance measures and targets: City of Phoenix, City of Tempe, Valley Metro Regional Public Transportation Authority (RPTA) and Valley Metro Rail. MAG has developed regional targets in coordination with transit providers. Figure 6-5 reflects the targets developed for the region.

Figure 6–5: Transit Asset Management Targets (Region)

Rolling Stock FY 24 Regional Target

Category	Useful Life Benchmark	FY 25 Regional Target (%) *Percent of revenue vehicles that have met their useful life benchmark.*	FY 25 Regional Target (#)
Light Rail Vehicle	31 years	0%	0 of 62
Streetcar Vehicle	31 years	0%	0 of 5
Over the Road Bus (BR), 45'	14 years	0%	0 of 24
Bus, <60’	12 years*	11%	74 of 664
Articulated Bus (AB) 60’	12 Years*	12%	15 of 125
Bus, <60’	14 years**	2%	2 of 96
Articulated Bus (AB) 60’	14 years**	100%	15 of 15
Cutaway Buses (CU)	7 years	0%	0 of 161
Dedicated Paratransit Vehicles	8 years	23%	24 of 103
Vanpool	8 years	100%	56 of 56

Guideway Performance - Light Rail Alignment	Performance restriction[2]	0%	0
Guideway Performance - Streetcar Alignment	Performance restriction[2]	0%	-

[1]Transit Economic Rate Model
[2]The light rail or streetcar vehicle must slow to less than its normal travelling speed.

Public Transportation Agency Safety Plans (PTASP)

The Federal Transit Administration (FTA) requires that all operators of public transportation systems receiving federal financial assistance from the Urbanized Area Formula Program complete a PTASP that includes safety performance targets set by the transit provider. In the MAG region, those providers are the City of Phoenix and Valley Metro RPTA and Valley Metro Rail. In accordance with this requirement, these providers have set targets based on previous benchmarks. Figure 6-6 reflects the targets developed for the region.

Figure 6–6: PTASP Targets (Region)

	FY24 Regional Target (per 100k miles)	FY 24 Regional Target (#)
Motor Bus (MB)		
Fatalities	0.1	<4
Injuries	0.51	101
Safety Events	2.40	632
System Reliability	-	15,612*
Demand Response (DR)		
Fatalities	-	-
Injuries	0.13	4.00
Safety Events	0.09	3.00
System Reliability	-	22,014*
Rail (LR–SR)		
Fatalities	0.03	<1
Injuries	0.60	14
Safety Events	1.66	52
System Reliability	-	15,000*

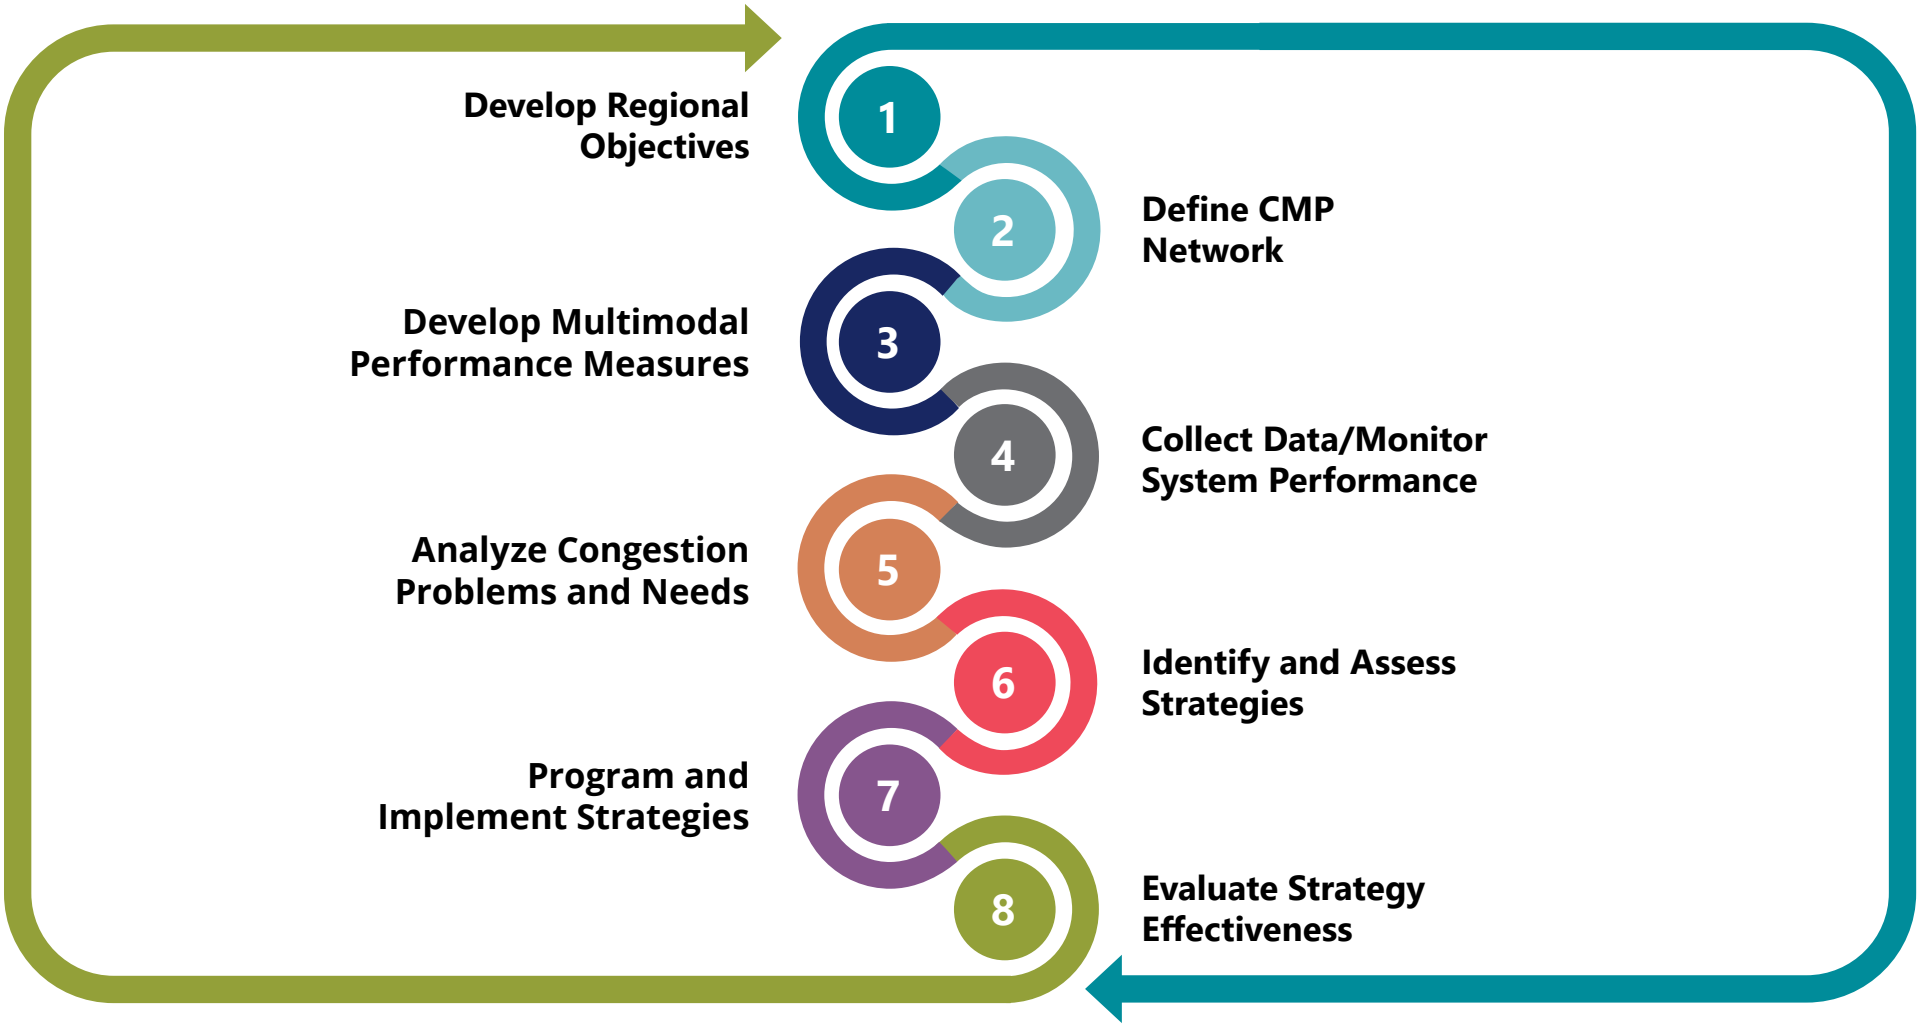
**Average miles between failures*

Congestion Management Process

The following section is based on Performance Measurement Framework and Congestion Management Update Study (MAG, October 22, 2010) and Congestion Management Process Update (Cambridge Systematics, October 2023) and focuses on the relationship between the TIP and the Congestion Management Process (CMP). A congestion management process is a systematic and regionally accepted approach for managing congestion that provides accurate, up-to-date information on transportation system performance and assesses alternative strategies for congestion management that meet state and local needs.

The MAG CMP is illustrated in the Figure 6-7.

Figure 6–7: MAG CMP Process



Future Directions

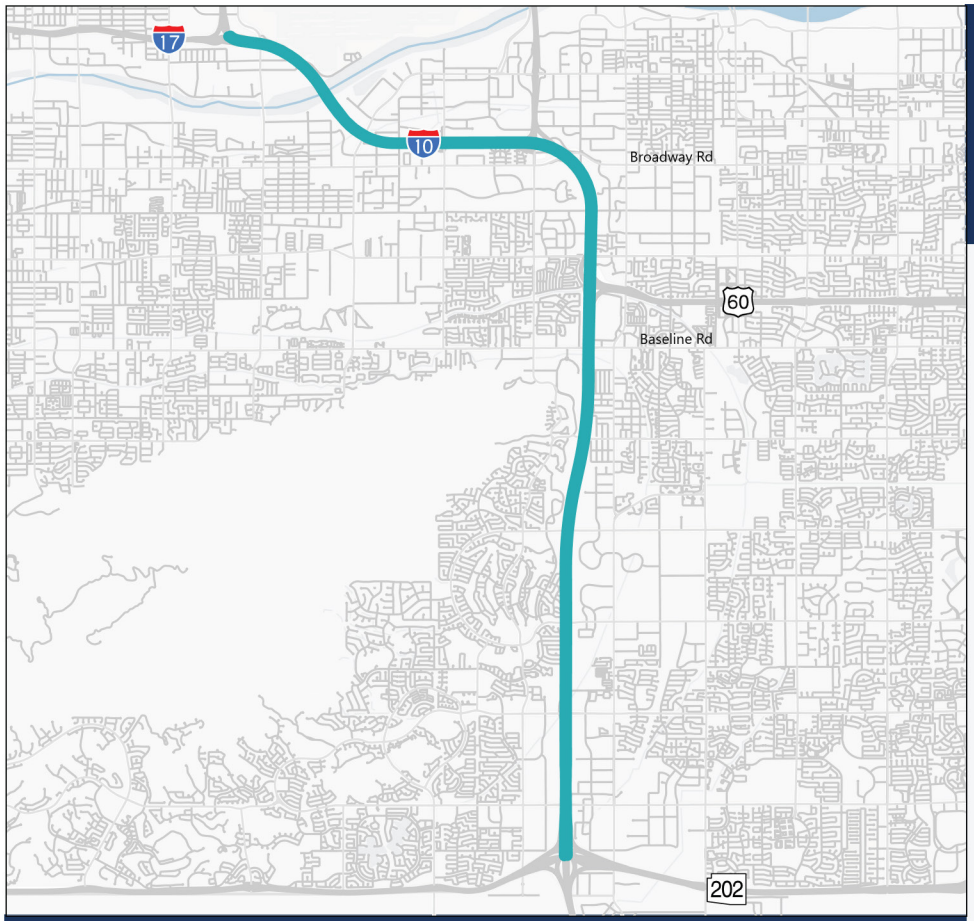
The TIP includes yes/no indicator flags for each of the performance areas for each project. These help users to readily identify projects that have an impact on a particular performance area, but do not provide analysis on the magnitude of that impact.

Future TIPs will attempt to overlay transportation performance data with transportation investment data to provide insights into future investments. This requires the establishment of a strong feedback mechanism between the TIP and a variety of data sources (e.g., travel demand model data, traffic counts, travel speed, crash rates, pavement management system data, land use data), so that the relationship between performance and investment can be more closely examined by the public and transportation providers.

7- Completed Major Projects from the 2025-2030 TIP

Federal regulations under 23 CFR 450.326(n)(2) require the TIP to include all major projects from the previous TIP that have been implemented and discuss any significant delays in planned major projects. As noted earlier, MAG has chosen to expand the major project definition to include projects that have a total budget in excess of $200 million or that are regionally important.

I-10 (Maricopa): I-17 Split to Loop 202 (Santan)



PROJECT PROGRAM
Prop 400 FLCP

OPEN TO TRAFFIC
2025

PROJECT LENGTH
11 Miles

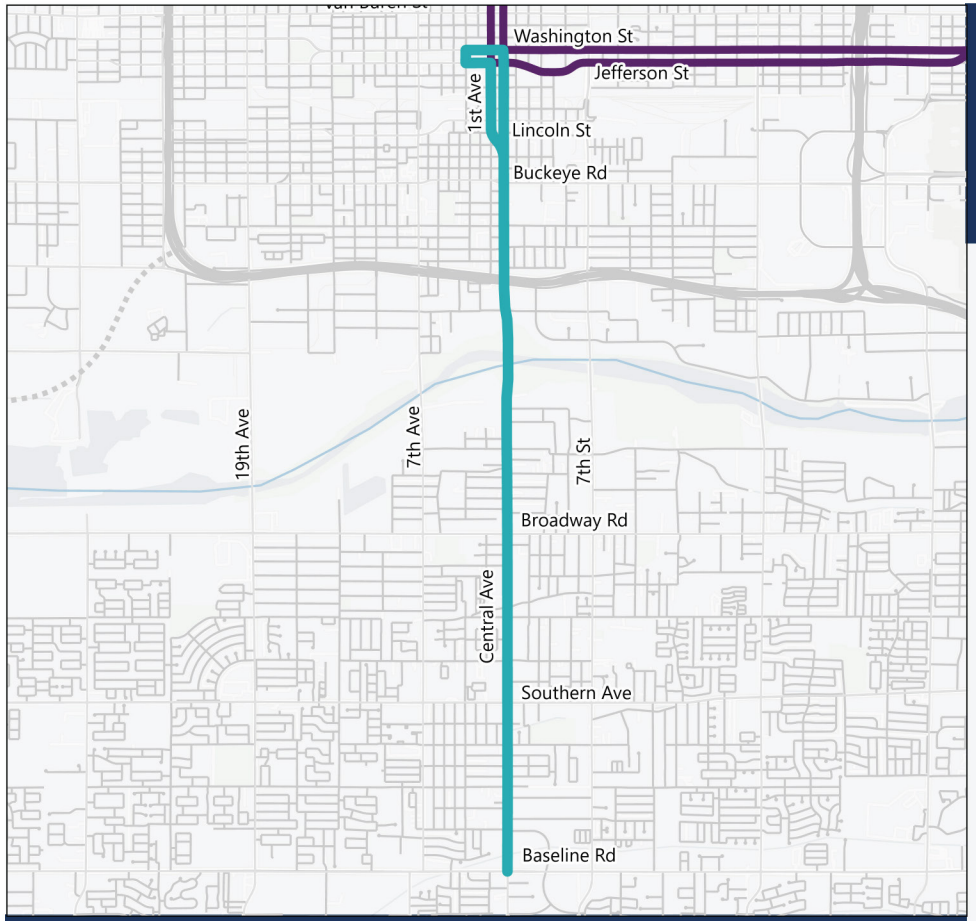
APPROVED BUDGET
$854,294,046

I-10 (Maricopa):
I-17 Split to Loop 202 (Santan)

This project, also known as I-10 Broadway Curve, added one general purpose lane in each direction to I-10 from Ray Road to 24th Street, and one HOV lane from west of US 60 (Superstition) to I-17.
The project included collector-distributor roads between Baseline Road and 40th Street, reconstruction of the Salt River Bridge, reconstruction of the SR 143 (Hohokam) Bridge, reconstruction of the Broadway Road bridge, the addition of new direct HOV lanes at SR 143 to and from the east, and pedestrian bridges at Alameda, the Western Canal, and Guadalupe Road.

Project Updates from last TIP:
- Updated Budget
- Completed

Valley Metro Light Rail: South Central Extension/Downtown Hub



PROJECT PROGRAM
Prop 400 TLCP

OPEN TO SERVICE
2025

PROJECT LENGTH
5.5 Miles

APPROVED BUDGET
$1,345,088,437

Valley Metro Light Rail:
South Central Extension/Downtown Hub

This project constructed an extension of the light rail system from downtown Phoenix to Baseline Road. In addition, improvements were constructed to facilitate the transition to a two-line system, including a central station with four platforms and a new west-side segment of track that will connect to the upcoming Capitol Extension project.

The light rail project serves several underserved communities and was accompanied with streetscape and bike/walk improvements.

Project Updates from last TIP:
- Completed

8- Major Projects in FY 2026-2030 TIP

I-10 (Maricopa): Wild Horse Pass Corridor

PROJECT PROGRAM
Prop 400 FLCP/Other

OPEN TO TRAFFIC
2027-2029

PROJECT LENGTH
26 Miles

APPROVED BUDGET
$973,087,558*

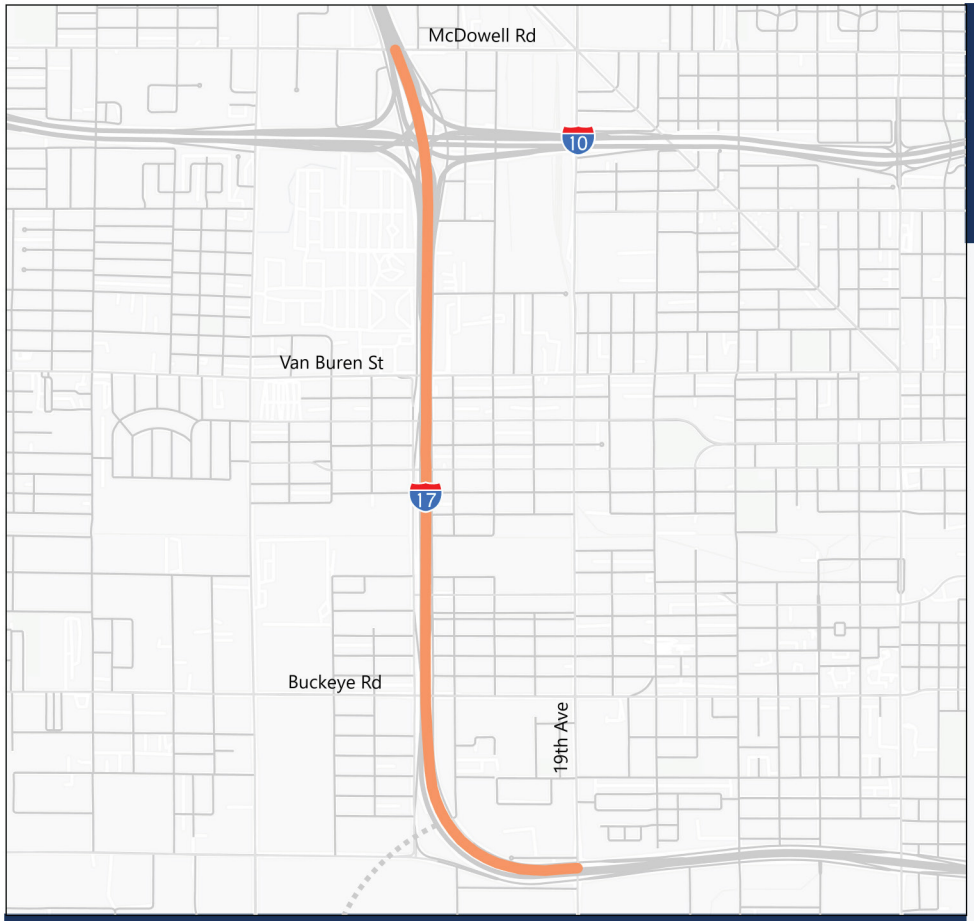
I-10 (Maricopa):
Wild Horse Pass Corridor

This set of projects includes several TIP projects from the Prop 400 FLCP and the ADOT 5-Year Program. Collectively, these projects will widen I-10 between Loop 202 (Santan) and SR 387 to provide increased capacity, travel time reliability, and safety on the key interstate corridor. The scope of these projects also include improvements to interchanges, such as at Wild Horse Pass Boulevard and Riggs Road.

Project Updates from last TIP:
- Updated Budget

*Includes legislative appropriations and ADOT 5-Year Program Funding

I-17 (Black Canyon): 19th Avenue to McDowell Road



I-17 (Black Canyon):
19th Avenue to McDowell Road

The scope of this project is to reconstruct and and widen I-17 between 19th Avenue and McDowell Road. This project will also include corridor upgrades to incorporate current interstate design standards, such as modernizing the traffic interchanges. These improvements will help enhance safety, reduce congestion, and improve travel time reliability through the corridor.

Project Updates from last TIP:
- New Project

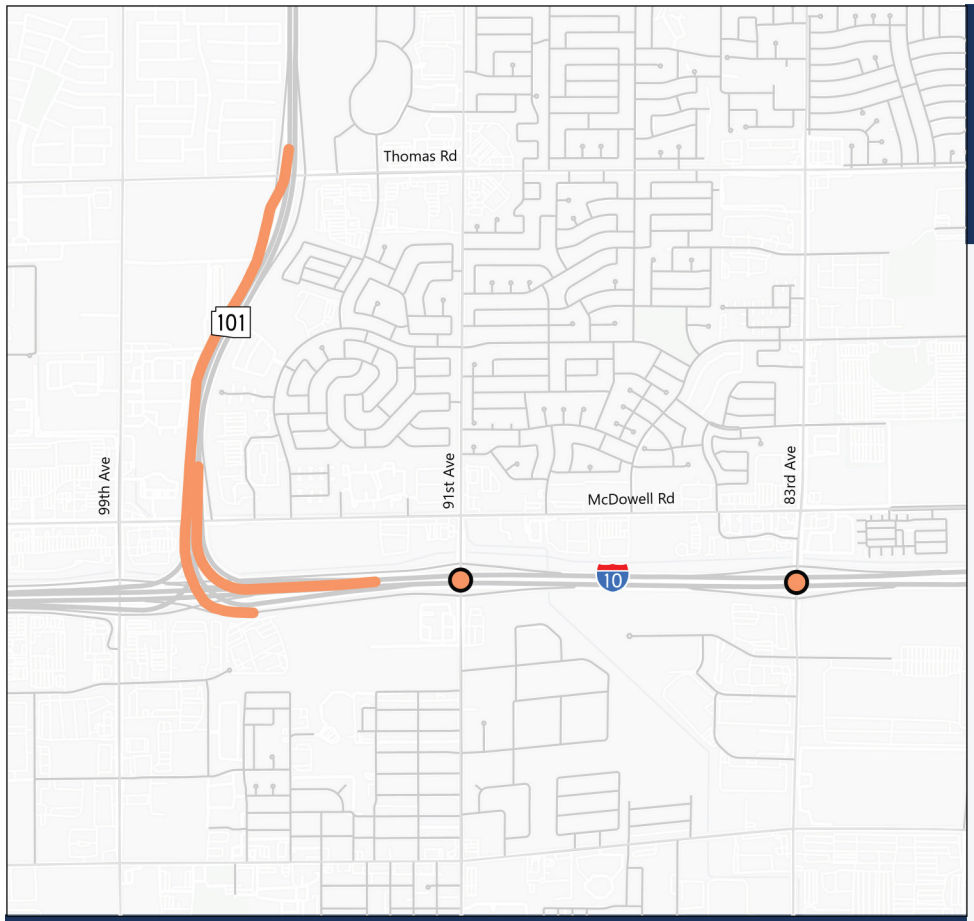
PROJECT PROGRAM
Prop 479 FLCP

OPEN TO TRAFFIC
2038

PROJECT LENGTH
2.9 Miles

APPROVED BUDGET
$267,225,424

Loop 101 (Agua Fria): I-10 (Maricopa Freeway) Interchange Improvements



PROJECT PROGRAM
Prop 400 FLCP

OPEN TO TRAFFIC
2027

PROJECT LENGTH
Interchanges

APPROVED BUDGET
$359,925,319

Loop 101 (Agua Fria):
I-10 (Maricopa Freeway) Interchange Improvements

The scope of the project is to construct improvements to the Loop 101 (Agua Fria) and I-10 (Papago) interchange. Improvements will include construction of direct HOV lanes to and from Loop 101 (Agua Fria) to I-10 (Papago) east of the system interchange.

As part of the approval of the Prop 479 FLCP in May 2025, three interchange projects originally funded through Prop 479 were advanced to Prop 400 and combined with this project, I-10 at 83rd Avenue, I-10 at 91st Avenue, and the Loop 101 (Agua Fria)/91st Avenue Connector.

Project Updates from last TIP:
- Updated Budget
- Updated Scope

Loop 101 (Agua Fria): 75th Avenue to I-17 (Black Canyon Freeway)

PROJECT PROGRAM
Prop 400 FLCP

OPEN TO SERVICE
2027

PROJECT LENGTH
6 Miles

APPROVED BUDGET
$254,024,378*

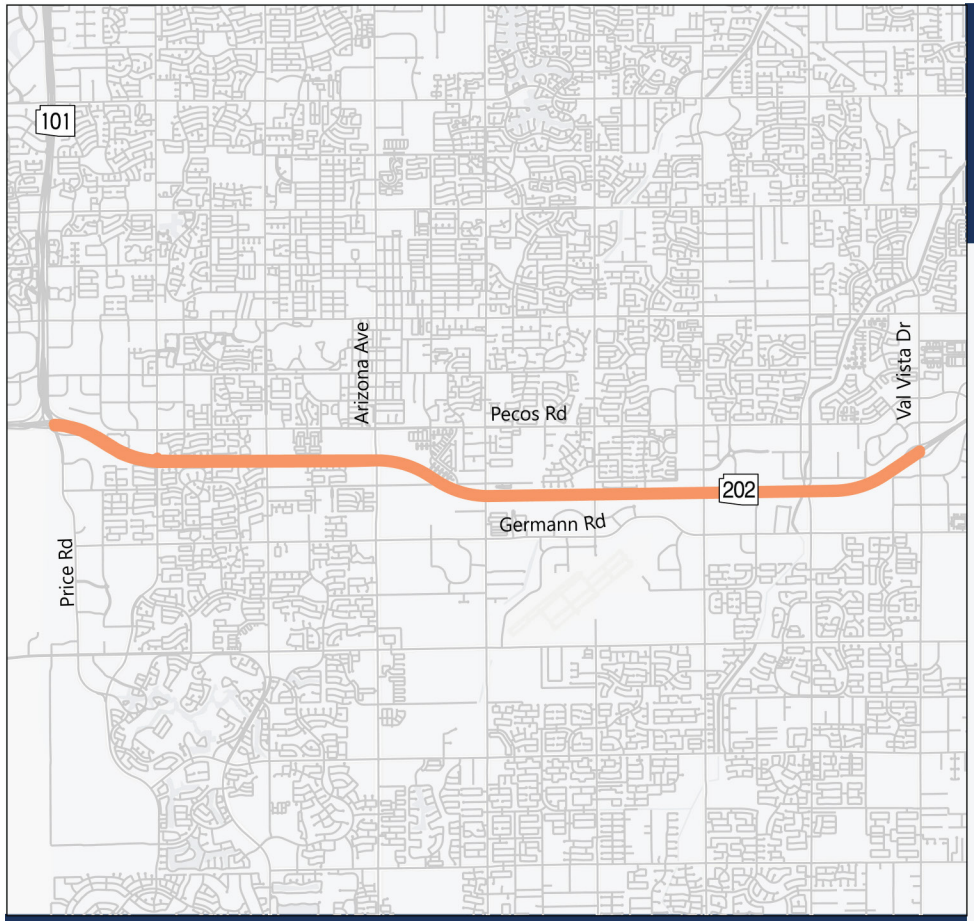
Loop 101 (Agua Fria):
75th Avenue to I-17 (Black Canyon Freeway)

This project includes the widening of Loop 101 between I-17 and 75th Avenue to add an additional general-purpose lane and improve the traffic interchange at Loop 101 and 75th Avenue. This project will provide additional capacity on Loop 101 and improve travel time reliability to commuters.

Project Updates from last TIP:
- Updated Budget

*Includes legislative appropriations and ADOT 5-Year Program Funding

Loop 202 (Santan): Val Vista Drive to Loop 101 (Price)



PROJECT PROGRAM
Prop 400 FLCP

OPEN TO TRAFFIC
2026

PROJECT LENGTH
8 Miles

APPROVED BUDGET
$286,562,980

Loop 202 (Santan):
Val Vista Drive to Loop 101 (Price)

This project includes the widening of Loop 202 between the Loop 101 Price Freeway and Val Vista Road to add an additional general-purpose lane. This project will provide additional capacity on Loop 202 and improve travel time reliability in the Southeast Valley.

Project Updates from last TIP:
- Updated Budget

SR 24 (Gateway): Loop 202 to Ironwood Drive (Third GPL)

PROJECT PROGRAM
Prop 479 FLCP

OPEN TO TRAFFIC
2028

PROJECT LENGTH
4.1 Miles

APPROVED BUDGET
$424,815,359

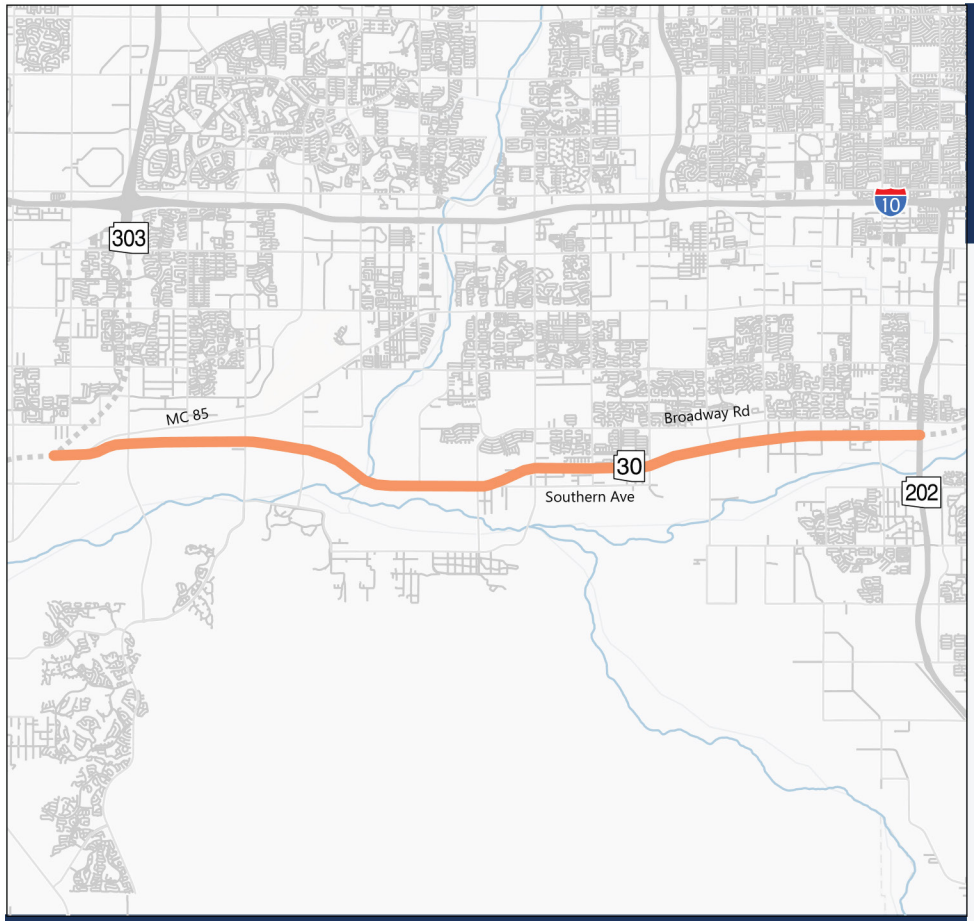
SR 24 (Gateway):
Loop 202 to Ironwood Drive (Third GPL)

The scope of this project is to construct the SR 24 (Gateway) freeway to its full freeway configuration, including adding a third general purpose lane and constructing grade-separated traffic interchanges.

This project will reduce congestion on the freeway itself as well as the perpendicular interchanges with which it currently shares at-grade traffic interchanges.

Project Updates from last TIP:
- Updated Budget
- Updated Open to Traffic

SR 30 (Tres Rios): Loop 303 (Estrella) to Loop 202 (South Mountain)



PROJECT PROGRAM
Prop 400/479 FLCP

OPEN TO TRAFFIC
2030-2035

PROJECT LENGTH
14.2 Miles

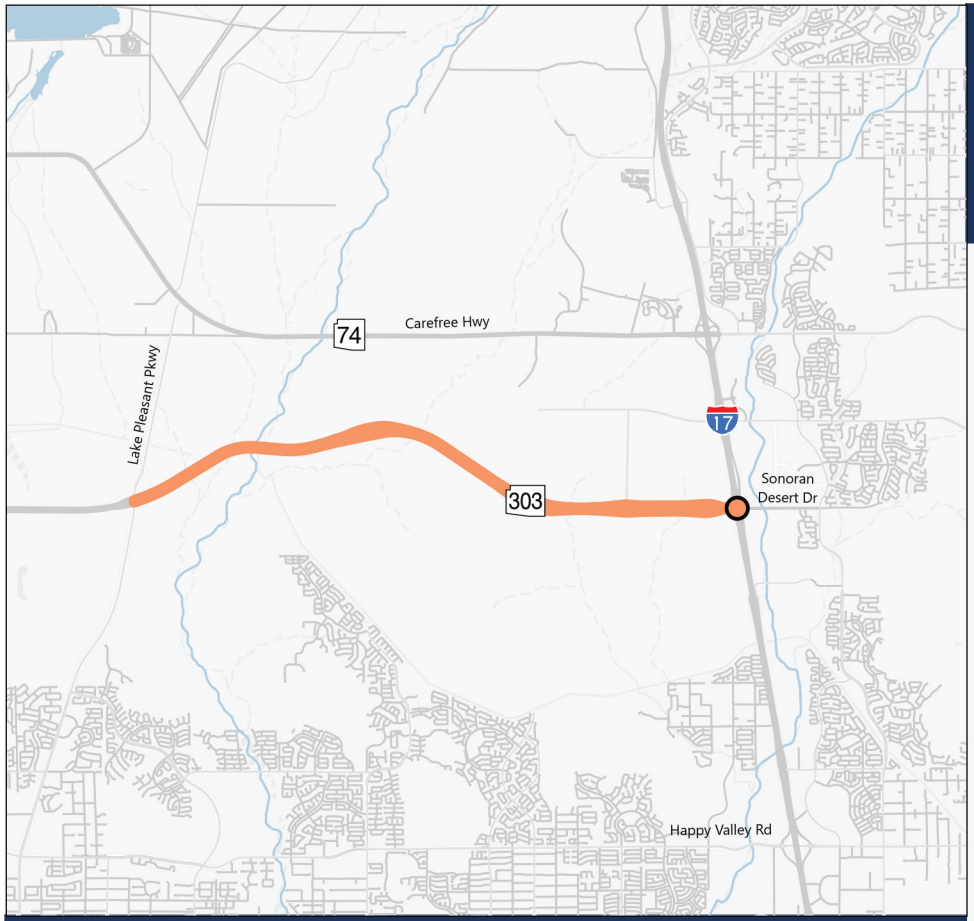
APPROVED BUDGET
$3,160,098,584

SR 30 (Tres Rios):
Loop 303 (Estrella) to Loop 202 (South Mountain)

This project will construction a new three lane freeway between Loop 303 (Estrella) and Loop 202 (South Mountain), including two new system interchanges. This new facility will provide congestion relief to Interstate 10 (Papago Freeway) and provide an alternative route from Buckeye to downtown Phoenix.

Project Updates from last TIP:
- Updated Open to Traffic Date
- Updated Budget

Loop 303 (Estrella): 51st Avenue to I-17 System Interchange



PROJECT PROGRAM
Prop 479 FLCP

OPEN TO TRAFFIC
2028

PROJECT LENGTH
3 Miles

APPROVED BUDGET
$275,980,331

Loop 303 (Estrella):
51st Avenue to I-17 System Interchange

This project will improve the existing interchange at Loop 303 (Estrella Freeway) and I-17 to a full system interchange. Traffic trying to access Loop 303 from I-17 currently uses the Sonoran Desert Drive interchange, which requires exiting the freeway and stopping at a traffic light. This improvement will allow for free-flow traffic for the first time between the two freeways.

Project Updates from last TIP:
- Updated Open to Service Date
- Updated Budget

Loop 303 (Estrella): MC 85 to Van Buren Street

PROJECT PROGRAM
Prop 400 FLCP

OPEN TO TRAFFIC
2028

PROJECT LENGTH
5 Miles

APPROVED BUDGET
$870,719,057

Loop 303 (Estrella):
MC 85 to Van Buren Street

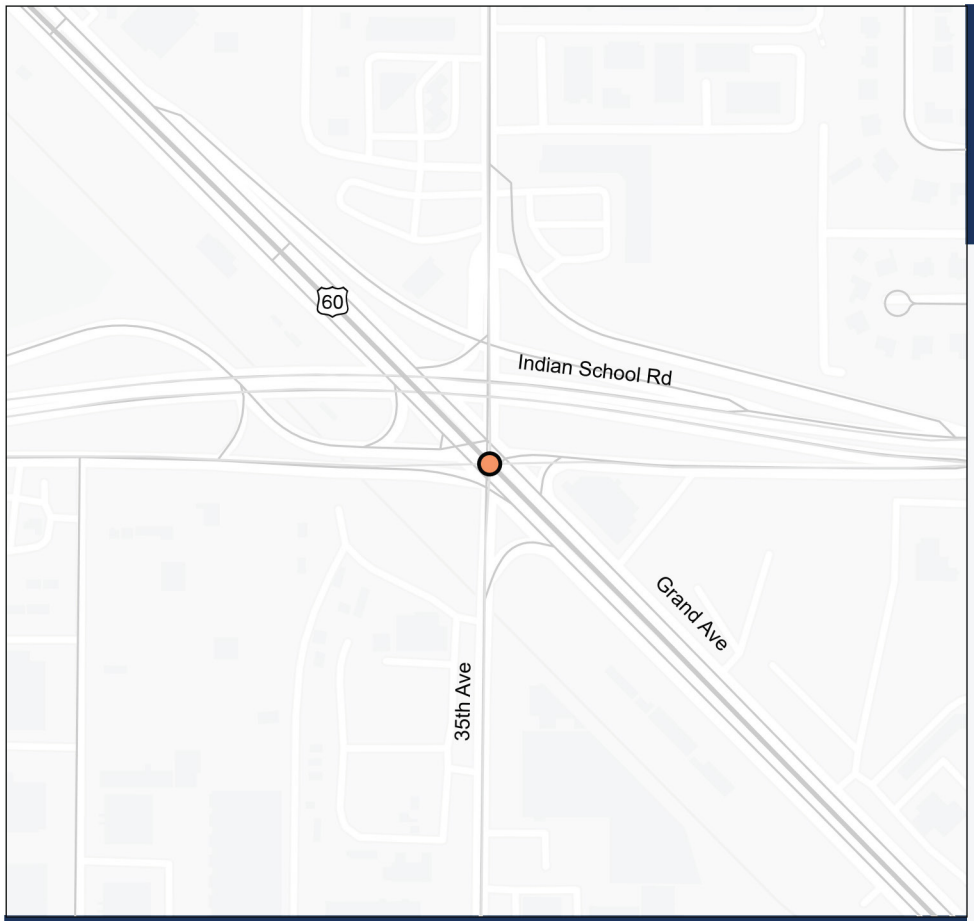
This project will extend Loop 303 (Estrella) from Van Buren Street past Lower Buckeye Road along the future Loop 303/SR 30 southbound/ eastbound ramp with an interim connection to MC 85. The facility will be three lanes in each direction separated by a graded median until Lower Buckeye Road, after which Loop 303 will continue as an arterial-style road.

Two-lane, one-way frontage roads will be constructed between Elwood Street and Van Buren Street, and existing Cotton Lane will be replaced through this section by the Loop 303 mainline roadway.

This scope advances a portion of the future Loop 303/SR 30 connection. Construction of the remaining portion is funded in the RSTIIP.

Project Updates from last TIP:
- Updated Open to Traffic Date
- Updated Budget

US 60 (Grand Avenue): 35th Avenue/Indian School Road



US 60 (Grand Avenue):
35th Avenue/Indian School Road

PROJECT PROGRAM
Prop 400 FLCP

OPEN TO TRAFFIC
2029

PROJECT LENGTH
Intersection

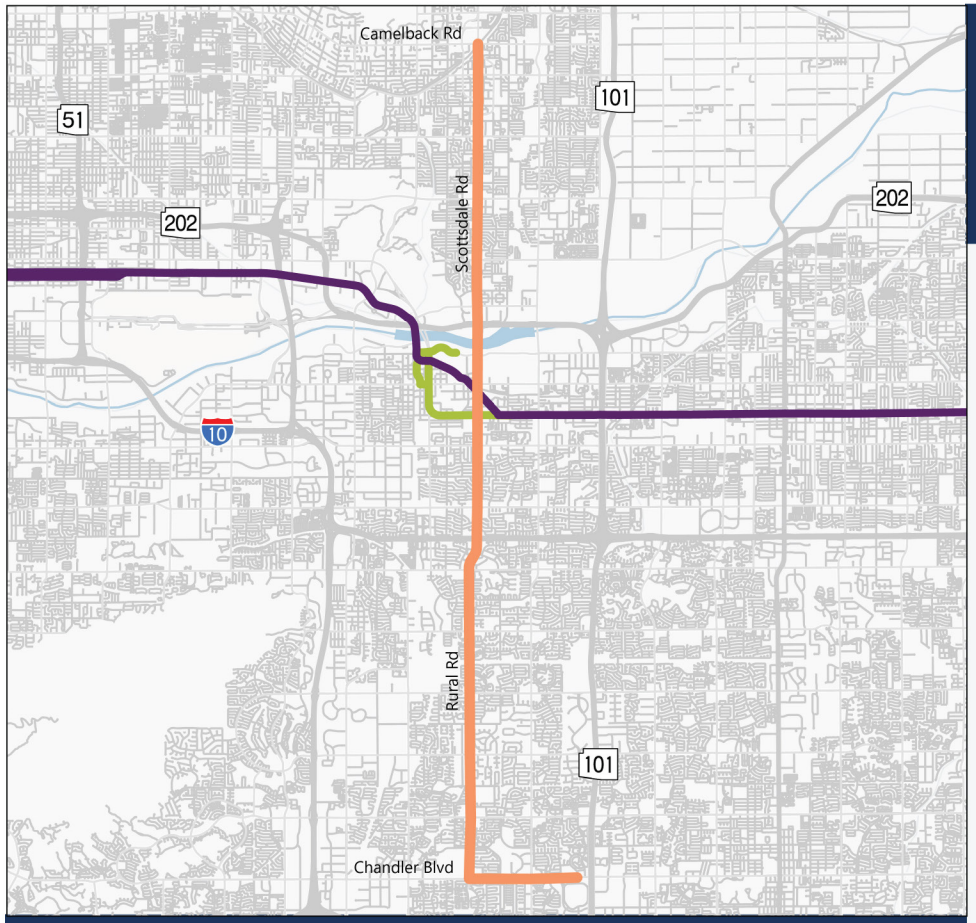
APPROVED BUDGET
$399,057,912

The scope of this project is to grade separate and reconstruct the intersection of US 60, 35th Avenue, and Indian School Road. This project will eliminate the at grade crossing of the BNSF Railroad with Indian School Road and 35th Avenue.

This project will reduce congestion and safety concerns at the intersection. The project was awarded $146,627,824 through the FY2025-2026 Multimodal Project Discretionary Grant program for the reduction of congestion and safety issues at the intersection.

Project Updates from last TIP:
- Updated Budget

Bus Rapid Transit: Scottsdale Road/Rural Road BRT



PROJECT PROGRAM
Prop 479 TLCP

OPEN TO SERVICE
2030

PROJECT LENGTH
15.4 Miles

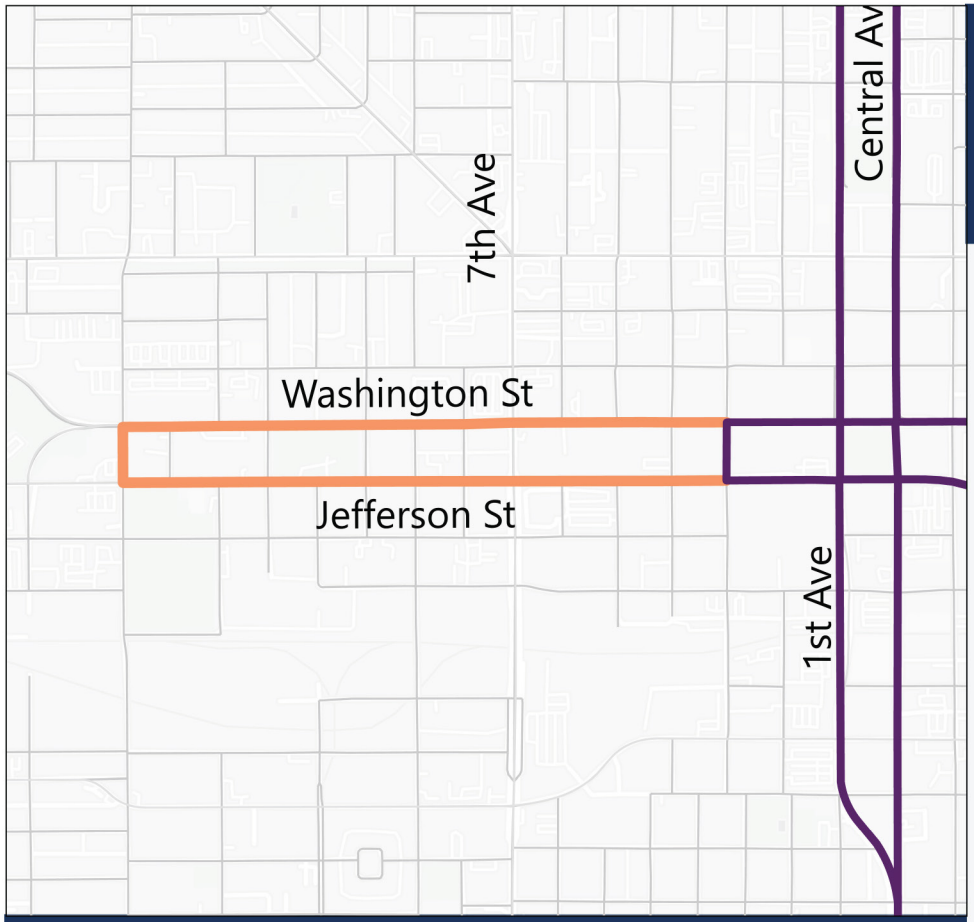
APPROVED BUDGET
$1,128,604,716

Bus Rapid Transit:
Scottsdale Road/Rural Road BRT

This project will construct a bus rapid transit (BRT) line along Scottsdale Road/ Rural Road in the cities of Scottsdale and Tempe. This project would connect areas such as Old Town Scottsdale, Arizona State University, and Chandler Fashion Center.

Project Updates from last TIP:
- None

Valley Metro Light Rail: Capitol Extension



PROJECT PROGRAM
Prop 400 TLCP

OPEN TO SERVICE
2027

PROJECT LENGTH
1.5 Miles*

APPROVED BUDGET
$528,978,895

Valley Metro Light Rail:
Capitol Extension

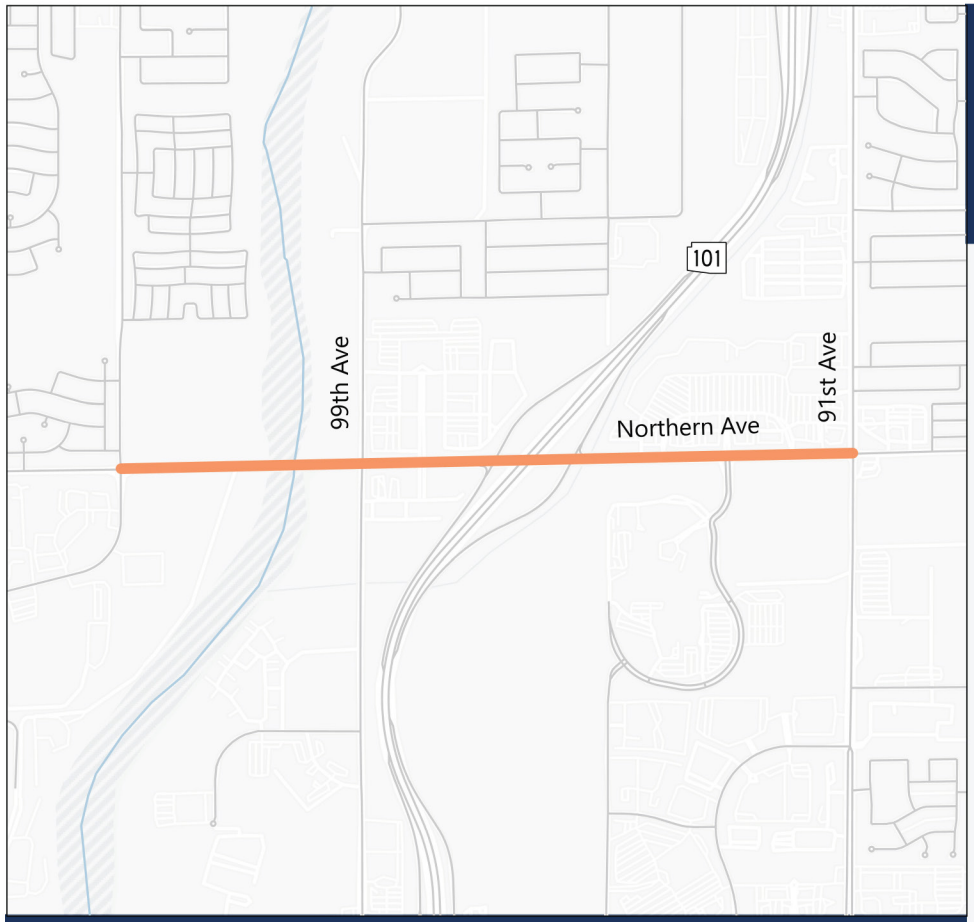
The Capitol Extension will connect the existing Valley Metro A Line in downtown Phoenix to the Arizona State Capitol.

This project will facilitate the future I-10 West project, which will continue north and then west to I-17, from which it will run west for several miles parallel to the I-10 Papago Freeway.

Project Updates from last TIP:
- Updated Budget

*As a result of Senate Bill 1102, the map shown reflects an updated alignment which is included in the approved MAG conformity network. Future changes to the MAG TIP will include conforming updates to project length.

Northern Parkway: 103rd Ave to 91st Ave



Northern Parkway:
103rd Avenue to 91st Avenue

This project is part of a larger corridor project of Northern Parkway from Loop 303 (Estrella) to US 60 (Grand Avenue). This project will see improvements to the interchange of Northern Parkway at the Loop 101 (Agua Fria) as well as widening to reduce congestion and anticipate future growth.

Project Updates from last TIP:
- Updated Budget

*This project was previously programmed as "Northern Parkway: 99th Ave to 87th Ave"

PROJECT PROGRAM
Prop 400 ALCP

OPEN TO TRAFFIC
2028

PROJECT LENGTH
1.5 Miles

APPROVED BUDGET
$96,537,570

9- Financial Plan

Cooperatively Developed Funding Estimates

Projects included in the TIP rely on four general revenue streams: federal, regional, private, and local (including state HURF funding). Per 23 C.F.R. § 450.326(j) all funding projections are in year of expenditure (YOE) dollars.

Federal highway funding in the region is comprised of those amounts programmed as part of the FLCP, ADOT statewide projects that are located in the MAG region and funding that is directly suballocated to MAG. The suballocated amounts are based on federal formulas, and include Metropolitan Planning funding (PL), Surface Transportation Block Grant Program (STBGP), Transportation Alternatives Program (TAP), and the Carbon Reduction Program for areas in the state over 200,000 in population. Funding also is allocated based on agreements between ADOT and the COGs/MPOs located throughout the state for Statewide Planning and Research (SPR), CMAQ, STBGP, TAP, and Carbon funding (for areas in the state between 50,000 and 200,000 in population, areas in population between 5,000 and 50,000, or areas that are under 5,000 in population).

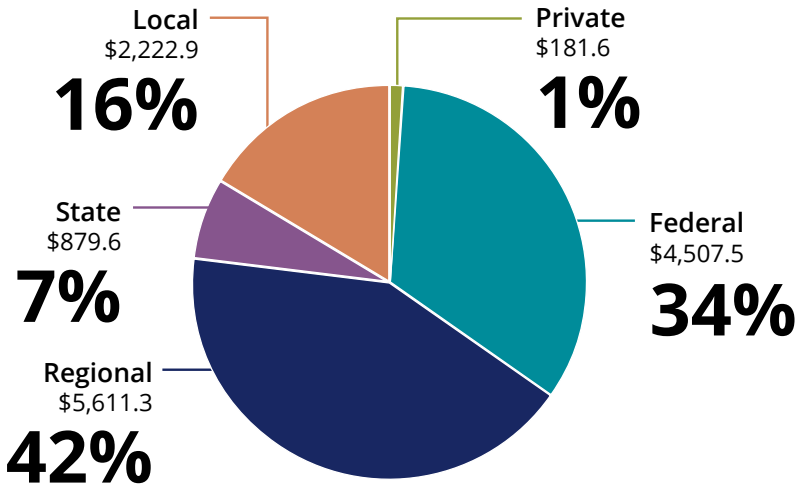
Federal transit funding projections are based on amounts in the latest surface transportation act. These projections have been reviewed and developed by MAG, in coordination with Valley Metro and the City of Phoenix – the region's designated and direct recipient of FTA funding.

Obligation authority for MAG federal funds is estimated at 94.9 percent for the five-year life span of the TIP. It is jointly assumed by MAG, ADOT, and transportation operators that federal funding will continue beyond the expiration date of the current federal surface transportation act.

Revenue Sources

The region has a diverse portfolio of funding sources available to deliver transportation projects. The allocation of these sources considers federal and state restrictions on how and where the funding can be applied. Figure 9-1 shows the composition of funding sources in the TIP for FY 2026–2030. The funding is on a year of programming dollar basis. A detailed listing of the component parts of each high-level funding source is contained in Appendix B.

Figure 9–1: Regional Transportation Funds by Source (YOE, U.S. $ in millions): FFY 2025-2030



The main categories of funding sources available to the region for transportation projects include:

- Federal Funds: includes ADOT (FHWA and FTA) and MAG (FHWA and FTA)
- Regional Funds: Maricopa County dedicated transportation sales tax (RARF and PTF)
- State Funds: includes Highway User Revenue Fund (HURF) and legislative appropriations.
- Local Funds
- Private Funds

Federal Funds

Federal funding programmed in the TIP is based on three main allocation types: ADOT federal funding programmed in the Five-Year Transportation Facilities Program for greater Arizona, MAG federal funding in the Program for use on the FLCP, and federal funding suballocated to the MAG region.

ADOT - FHWA

ADOT Federal funding in the MAG region consists of National Highway Performance Program (NHPP) funding, which is used to deliver the FLCP and projects in the ADOT Five-Year Transportation Facilities Program located in the MAG region that are not part of the FLCP. The ADOT Five-Year Program includes funding awarded through competitive programs administered by ADOT and covers highway safety (HSIP), railroad-highway crossings (RHC), and off-system bridge improvements (STBGP-OSB). A small amount of STBGP and FTA funding is allocated by ADOT for transit planning purposes.

Federal Highway Administration (FHWA)

For a more detailed explanation about Federal Highway funds, please see: Bipartisan Infrastructure Law - FHWA | Federal Highway Administration (dot.gov). FHWA has developed a guide that provides a detailed explanation on the various programs and projects available. The guide can be found here: A Guide to Federal-Aid Programs and Projects.

Federal Transit Administration (FTA)

For a more detailed explanation about Federal Transit funds, please see: Bipartisan Infrastructure Law - FTA | Federal Transit Administration (dot.gov). Federal Transit funds are programmed through an annual apportionment process and various formula and competitive grant programs. For information on the apportionment process, please see Apportionments | FTA (dot.gov). Grant program information can be found at Grant Programs | Federal Transit Administration (dot.gov).

Regional Funds

Maricopa County Dedicated Transportation Sales Tax

The current dedicated transportation sales tax, approved through the Proposition 400 ballot initiative, went into effect on January 1, 2006, and expires on December 31, 2025. Proposition 479 becomes effective January 1, 2026, through December 31, 2045. The revenues collected from the half-cent sales tax are deposited in the Arizona Department of Revenue account and allocated between the Regional Area Road Fund (RARF) and Public Transportation fund (PTF).

State Funds

ADOT - Highway User Revenue Fund (HURF)

The ADOT - HURF comprises funds from the gasoline and fuel use taxes, a portion of the vehicle license tax, registration fees and other miscellaneous sources collected within the state. Arizona Revised Statutes (ARS) allocate 12.6 percent of the State Highway Fund to be used in the MAG and PAG regions (MAG receives 75 percent of this funding). In addition, State Transportation Board policy allocates another 2.6 percent of the State Highway Fund (again MAG receives 75 percent of the allocation) for projects on state routes and highways in the region. For more information on funding: Highway User Revenue Fund (HURF) | ADOT (azdot.gov).

Legislative Funds

Legislative appropriations cover state general funds allocated to specific transportation projects. These amounts do not cover any future legislative amounts identified in approved legislation.

Local Funds

Local resources, including taxes, bonds, general funds, HURF allocated to member agencies, and impact fees, allow agencies to fully fund local transportation projects, operations and maintenance, pavement preservation, and meet various match requirements for capital projects.

As part of the development of the TIP, member agencies provide information on regionally significant projects and costs through an electronic database program. By doing so, the local member agencies demonstrate their commitment to fund their projects with anticipated local revenues.

Additionally, MAG requires that member agencies submit commitment letters two years in advance of project implementation to demonstrate matching funds for regional and federally funded projects for which MAG has programming authority.

Private Funds

Private funding resources are derived through the development of private properties, private sponsorship, and subdivisions. They take the form of private funding, impact fees, and exactions to cover the cost of related roadway infrastructure. As an area characterized by rapid urban growth with continued growth expected, revenues from this source make up a major part of funding for the TIP.

Privately funded projects in the TIP are fully contingent on the fulfillment of conditions necessary to provide public infrastructure as part of the land use development process. Should economic conditions decline, these projects may be re-scoped or abandoned as warranted by market conditions. The funding listed in the TIP for privately funded projects matches the costs of privately funded projects reported in the TIP.

Revenue and Programming Comparison

To validate fiscal constraint, this section provides a breakdown of revenue sources and programmed amounts by funding category, source and year programmed in the TIP.

Table 9-1 summarizes reasonably expected revenues, based on YOE, by programming year and by funding source. FHWA funding is broken out to show the amount of revenue associated with ADOT projects in the MAG region and the amount of federal funding that is specifically allocated to the region based on State Transportation Board policy. FHWA and FTA funding that is suballocated to the region includes those amounts defined in federal statute or based on agreements between ADOT and MAG. The table also includes any local or private funds.

Table 9–1: Projected Revenues by Funding Category and Source by Year Programmed (YOE, U.S. $ in Millions)

Funding Category		Source	2026	2027	2028	2029	2030	Total

**Represent funding included in legislation for future fiscal years*

Table 9-2 summarizes programmed amounts in the TIP by year and funding source. Funding sources are aggregated by the four main funding categories: federal, regional, local, and private. Table 9-3 listed below compares the revenue amounts included in Table 9-1 against the programmed amounts in Table 9-2. The balances by year and category are summarized at the bottom of the table and demonstrate that the TIP is fiscally constrained in each year and category. Tables 9-4 and 9-5 take the information included in Table 9-3 and break it down between highway/roadway projects and transit projects.

Table 9–3: Financial Summary (in Millions)

Revenue Estimates

Funding Source	2026	2027	2028	2029	2030	Total

Financial Strategies

MAG has put into place processes and policies for addressing revenue and programming overages and shortfalls to comply with 23 C.F.R. 450.324(f)(11)(vi).

Risk Assessment

The TIP comprises a variety of revenue sources that have differing sensitivities to economic factors. These include per-gallon fuel taxes, county sales taxes, fees and revenues obtained through the development process, and a wide range of taxes available to local member agencies, including property taxes, sales taxes, and enterprise funds.

There is always the risk that anticipated revenues may not meet projections. To mitigate those risks, conservative estimates were used in the RSTIIP and TIP.

Processes and Policies for Addressing Shortfalls and Overages

The TIP is subject to continual monitoring and revisions as conditions warrant. ADOT, transit operators in the region, and MAG member agencies are routinely surveyed to verify their projects are developing as programmed. Revenue projections are updated to reflect the latest available economic data.

By cost, the overwhelming majority of projects programmed in the TIP, including most major capital projects, are part of one of the three life cycles identified in the RSTIIP. Projects in these programs are included in cash flow models that allow for a greater degree of control over project development than what is available in the TIP. Consistent with maintaining adequate cash reserves and physical requirements, project development may be accelerated or elongated to ensure that revenues and expenditures balance.

These programs also require that revenues and expenditures are balanced over the sales tax funding horizon. When projected costs exceed projected revenues, a rebalancing effort occurs. Projects are reprogrammed to later years in the TIP or to years outside the TIP planning horizon. Based on impacts from the Great Recession and other adjustments to the program, the various life cycle programs have gone through rebalancing efforts that have deferred projects out of their planning horizons or added projects back in based on available resources. All actions are consistent with the programmatic guidelines for each life cycle program.

Non-life cycle program (NLCP) projects are closely monitored by MAG. Project sponsors are required to provide and maintain project development schedules, updated cost information and letters of commitment from the sponsoring agency. To remain in the TIP project, sponsors must show continuous progress. The MAG Regional Programming Guidelines outline the steps required for an agency to defer a project. If revenues are available in the current year of the TIP, a federal fund closeout process may be held where projects may advance, or additional work phase funding awards may be completed.

10- Statistical Summary

The following section provides a statistical summary of highway and transit programming amounts included in the TIP. Tables in this chapter are based on the FY 2026-2030 Draft TIP project listings. Federal funding includes those amounts appropriated by formula, as well as amounts allocated through direct federal action or through a competitive grant process. Regional funds include the portion of State Highway Fund (SHF) dollars allocated to the MAG region by statute and State Transportation Board policy. Local funds include required matching funds and additional local funds required to fully fund projects. For projects on the state system, the use of local funds denotes state highway funds. Private funds constitute non-federal/regional funding not provided by the member agencies.

Comparison of Highway and Transit Sections

As shown in Table 10-1, the total amount of projects programmed in the TIP is $10.9 billion. The highways section accounts for 80 percent of programming, while the transit section covers the remaining 20 percent. Regional funding accounts for 39 percent of project costs with federal funding accounting for approximately 36 percent of costs.

Table 10–1: Highway and Transit Costs by Funding Category and Year Programmed (YOE, U.S. $ in Millions)

Section	Funding Source	2026	2027	2028	2029	2030	Total	Share
Highway	Federal	$1,050.9	$601.2	$530.7	$493.6	$457.4	$3,133.8	**28.9%**

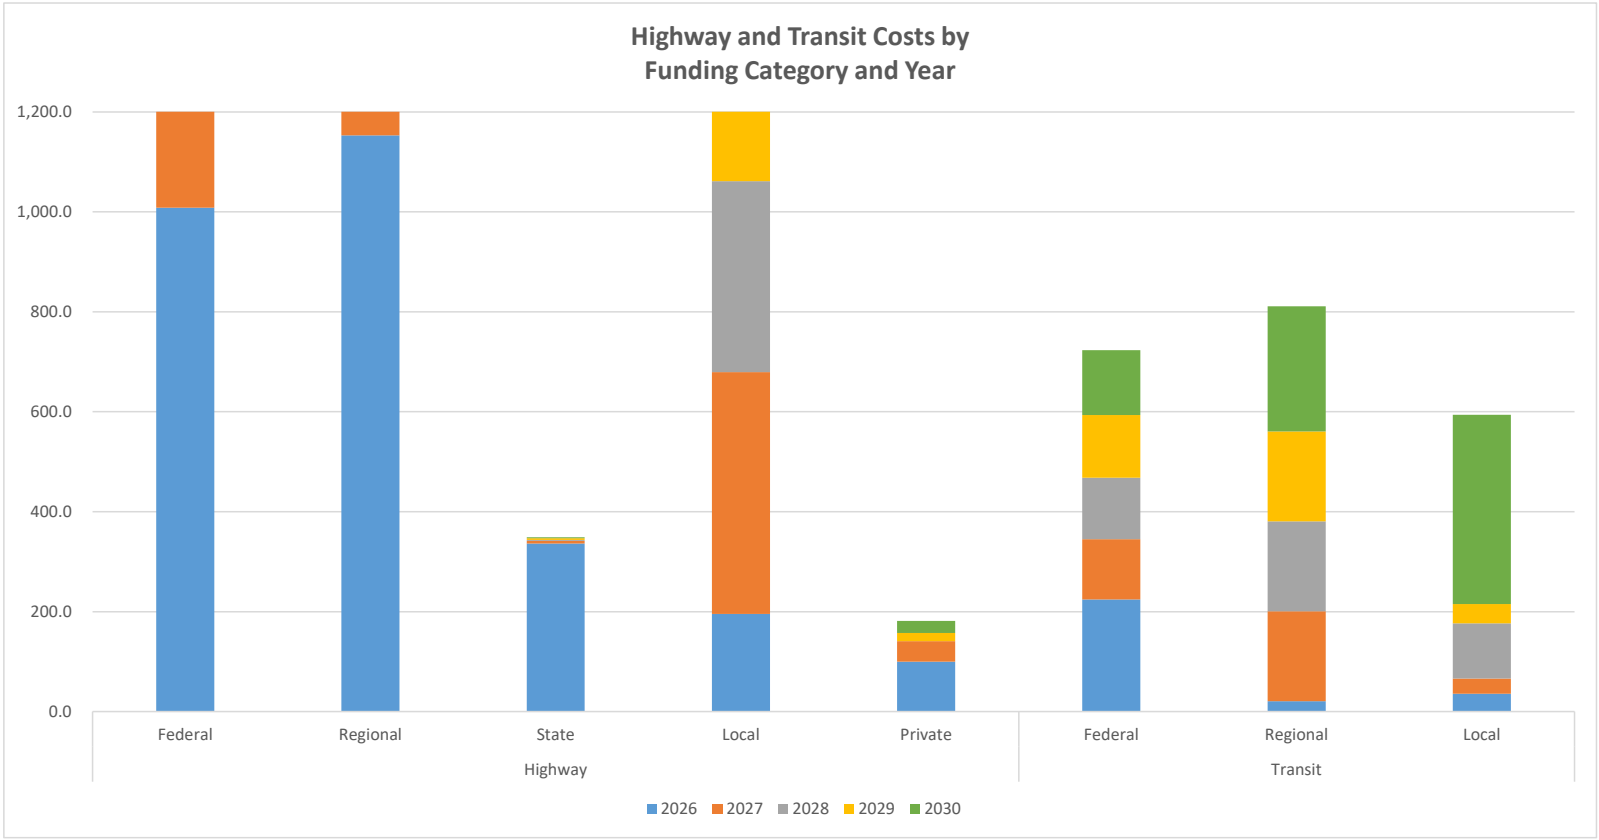
Figure 10-1 illustrates the diversity of funding investments within the region.

Figure 10–1: Highway and Transit Programming by Program and Funding Source



Highway Section

The FLCP and the ALCP are included as part of the highway section of the TIP. In addition, non-life cycle program elements are also listed. Table 10-2 below shows that while regional funding associated with the half-cent sales tax makes up the largest singular source of programming in the TIP, accounting for 40 percent of the funding. This table does show the diverse funding portfolio the region uses to deliver transportation investments.

Table 10–2: Highway Section – Programming by Funding Source and Mode (YOE, U.S. $ in Millions)

Funding	Funding Source	FLCP Freeway	ALCP Street	NLCP AQ	NLCP Bike/Ped	NLCP	NLCP Freeway	NLCP ITS	NLCP Other	NLCP Safety	NLCP Street	Total	Share
Federal	Bridge	-	-	-	-	$18.9	-	-	-	-	-	$18.9	**0.2%**

Transit Section

The transit section is composed primarily of the TLCP. The Prop 400 TLCP is maintained by Valley Metro while the Prop 479 TLCP is maintained by MAG. The TLCP utilizes funding from the Proposition 400/479 sales tax, federal transit funds, fare revenues, and local sources. Table 10-3 shows transit funding for capital projects programmed in the TIP is fairly distributed across federal, regional, and local sources.

Table 10–3: Transit Section – Programming by Funding Source and Mode (YOE, U.S. $ in Millions)

Funding Category	Funding Source	TLCP Bus	TLCP Rail	TLCP Other	Other Transit	Total	Share
Federal	5307	$61.7	$82.1	$280.5	$69.5	$493.8	**23.10%**
	5310	-	-	$30.9	$6.2	$37.2	**1.74%**
	5337	$16.0	$7.1	$77.9	$8.9	$109.9	**5.14%**
	5339	$8.8	-	$32.3	$.5	$41.6	**1.95%**
	CMAQ	-	-	-	$29.2	$29.2	**1.36%**
	STBGP	-	-	-	$2.9	$2.9	**0.13%**

	Disc Grants	-	-	-	$12.9	$12.9	**0.61%**
	Subtotal	$86.5	$89.2	$421.7	$133.0	$730.4	**34.16%**
Regional	Regional	$804.2	$1.8	-	$1.6	$807.6	**37.77%**
State	HURF	-	-	-	-	-	**0.00%**
	Leg Approp	-	-	-	-	-	**0.00%**
	State Hwy Fund	-	-	-	-	-	**0.00%**
	Subtotal	-	-	-	-	-	**0.00%**
Local	Local	$340.0	$35.2	$105.4	$119.6	$600.2	**28.07%**
Private	Private	-	-	-	-	-	**0.00%**
	Total	**$1,230.6**	**$126.2**	**$527.1**	**$254.2**	**$2,138.1**	**100.00%**

Transit funds programmed in the FY 2026-2030 TIP are distributed between member agencies based on a variety of factors such as fleet size, level of service provided, and size of area served. The region's largest transit operators, City of Phoenix, Valley Metro Rail, and Valley Metro RPTA, make up approximately 75 percent of transit programming in the region, while the remaining 25 percent is split between other member agencies and smaller operators.

11- Operating and Maintenance Costs

The following section outlines operations and maintenance (O&M) costs for transportation facilities and services in the MAG planning area.

Highway Facilities and Services

Highway facilities and services include all non-police and non-emergency service activities to maintain and operate roadways. These include multi-modal features of roadways such as sidewalks, bicycle lanes, bus pullouts, and other features. All values in this section are in YOE dollars and refer to expenditures as these are based on member agency operating budgets.

Estimates of total expenditures are based on the size of the arterial street network using factors developed in the ADOT Roadway Maintenance Costs Summary Report (2019) and the Roadway Operations and Maintenance Cost Study (2012). These factors were applied to mileage estimates from the MAG travel demand model and then adjusted for inflation.

Table 11-1 provides an overview of operating and maintenance expenditures for roadway projects. There are no dominant cost categories and actual expenditures per year, particularly by category, may vary substantially depending on agency, roadway network and the availability of funding.

Table 11–1: Highway Operating Expenditures (YOE, U.S. $ in Millions)

Fiscal Year	2026	2027	2028	2029	2030	Total	Share
Concrete	$19.4	$20.1	$20.7	$21.5	$22.2	$103.9	**4.5%**
General	$35.7	$37.0	$38.3	$39.6	$41.0	$191.6	**8.3%**
Landscaping	$50.8	$52.6	$54.4	$56.3	$58.3	$272.4	**11.8%**
Pavement	$95.0	$98.4	$101.7	$105.2	$109.1	$509.5	**22.0%**
Traffic Signals	$7.7	$8.0	$8.3	$8.5	$8.9	$41.3	**1.8%**
Signing	$9.1	$9.4	$9.7	$10.0	$10.4	$48.6	**2.1%**
Storm Drains	$11.0	$11.4	$11.8	$12.2	$12.7	$59.1	**2.6%**
Street Lighting	$29.5	$30.6	$31.6	$32.7	$33.9	$158.4	**6.8%**
Striping & Markings	$27.9	$28.9	$29.9	$31.0	$32.1	$149.9	**6.5%**
Sweeping	$24.5	$25.4	$26.3	$27.2	$28.2	$131.7	**5.7%**
Arterial Totals	$310.7	$321.8	$332.8	$344.2	$356.9	$1,666.3	**71.9%**
Rural Freeways	$9.2	$9.5	$9.8	$10.2	$9.8	$48.4	**2.1%**
Urban Freeways	$113.2	$117.3	$121.3	$125.4	$125.7	$603.0	**26.0%**
Freeways Total	$122.4	$126.8	$131.1	$135.6	$135.5	$651.3	**28.1%**
Total	$433.1	$448.6	$463.8	$479.8	$492.4	$2,317.7	**100.0%**

Transit Facilities and Services

MAG and member agencies have continued to invest in providing quality transit service to the public. Public transportation is vital to significant portions of the population and is provided by several operators in the MAG region. Service types vary across the region and include light rail, local or rural bus routes, RAPID/Express bus routes, vanpools, circulators/shuttles, and demand response or paratransit service. Transit service is supported by various capital facilities such as bus stops, transit centers, park-and-ride lots, light rail stations, control centers, and maintenance yards.

As of June 2025, the regional transit network in Maricopa County includes 61 local routes, 19 neighborhood circulators, 19 Express/RAPID commuter routes, two light rail routes, one streetcar route, one limited route, and one rural connector. Passenger boardings for the system totaled approximately 38.4 million in fiscal year 2025 (July 1, 2024 - June 30, 2025), which are increasing after a significant drop in ridership during the COVID-19 pandemic.

O&M costs cover the cost of the frequency of transit service, span of transit service, and maintenance of the infrastructure supporting the bus service. Transit operating costs for the system and costs for the planned expansions of the system are detailed in Table 11-2; the costs are based on surveys conducted in 2025.

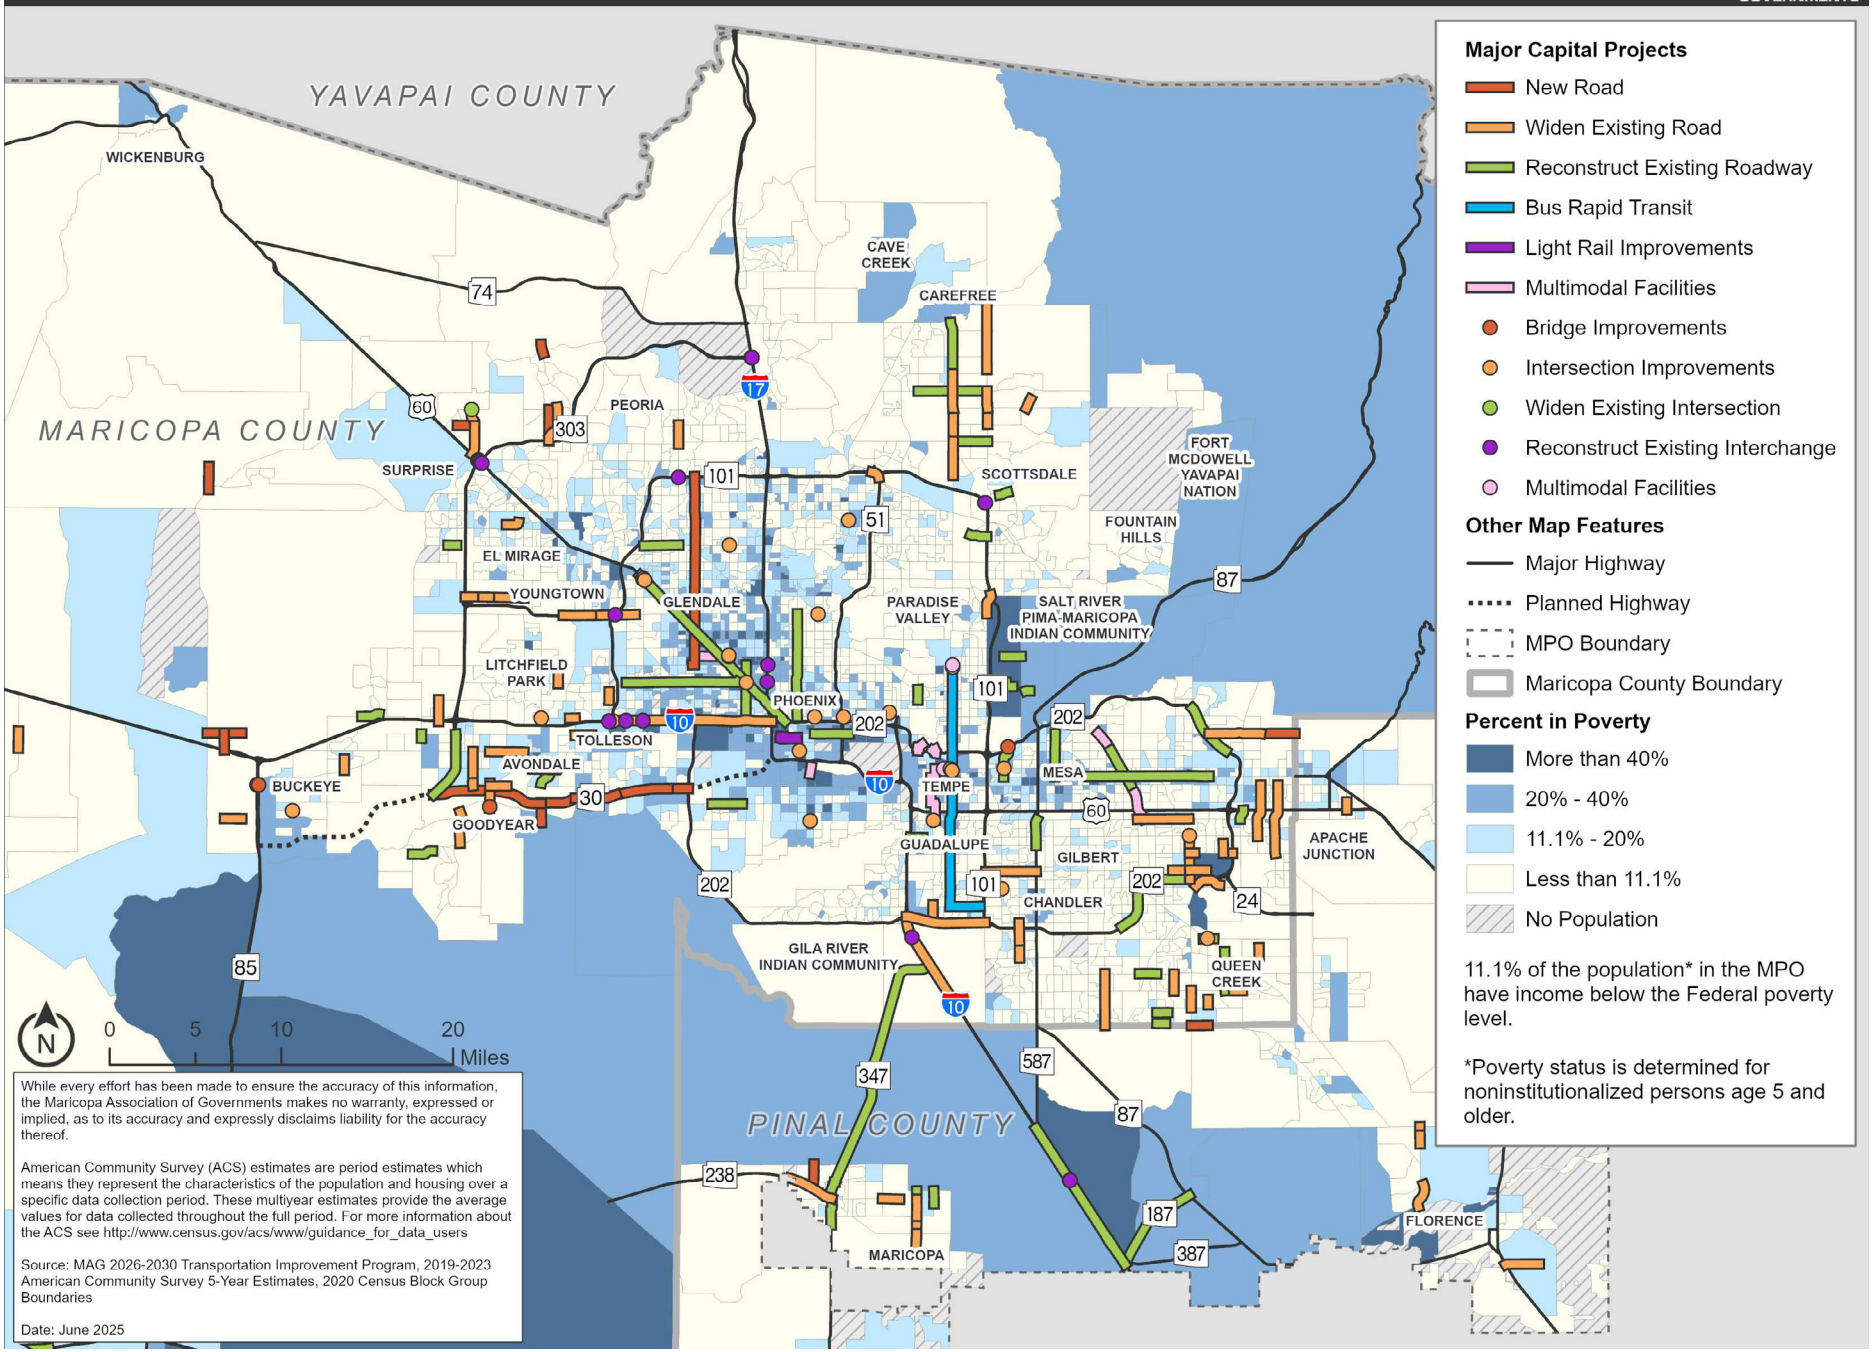
Table 11–2: Transit Operating Expenditures (YOE, U.S. $ in Millions)

Fiscal Year	2026	2027	2028	2029	2030	Total	Share
Federal	$39.6	$42.5	$46.5	$51.1	$55.5	$235.3	**7.4%**
Regional	$205.7	$213.6	$221.0	$229.2	$237.7	$1,107.3	**35.0%**
Local	$351.2	$357.1	$364.5	$371.4	$375.2	$1,819.4	**57.5%**
Total	$596.5	$613.2	$632.1	$651.7	$668.4	$3,161.9	**100.0%**

Operating expenditures grow between 3 percent and 7 percent per year. The role of federal funding in operations is small given that, per federal requirements, only a limited amount of federal dollars may be used for such purposes.

Appendix A – Transportation Investment Maps

Capital Improvements, 2026-2030, and Population in Poverty



While every effort has been made to ensure the accuracy of this information, the Maricopa Association of Governments makes no warranty, expressed or implied, as to its accuracy and expressly disclaims liability for the accuracy thereof.

American Community Survey (ACS) estimates are period estimates which means they represent the characteristics of the population and housing over a specific data collection period. These multiyear estimates provide the average values for data collected throughout the full period. For more information about the ACS see http://www.census.gov/acs/www/guidance_for_data_users

Appendix B - Regional Funding Sources

As mentioned in Section 9: Financial Plan, MAG uses a vast array of funding sources to meet the transportation needs of the region. Below is a listing and brief explanation of the funding categories. The end of this appendix contains a detailed listing of funding by source, life cycle program and modal category.

Maricopa County Dedicated Transportation Sales Tax (RARF & PTF)

In November 2024, the voters of Maricopa County approved the extension of the levy of the Maricopa County Transportation Excise Tax for an additional 20 years, ending December 31, 2045. Often referred to as the "half-cent sales tax," the tax is levied upon business activities in Maricopa County, including retail sales, contracting, utilities, rental of real and personal property, restaurant and bar receipts, and other activities. The tax revenues are collected by the Arizona Department of Revenue and are transferred monthly to the state treasurer. The state treasurer is required to deposit the collections from the tax as follows:

- 63.0 percent goes into the Maricopa County Regional Area Road Fund (RARF) consisting of:
  - 40.5 percent for freeways and routes on the state highway system, including design, right of way, construction, maintenance and debt service for projects included in the Regional Transportation Plan for Maricopa County.
  - 22.5 percent for major arterial streets, intersection improvements and regional transportation infrastructure, including capital expense and implementation studies.
  - A detailed explanation of the RARF can be found on the ADOT website: Regional Area Road Fund (RARF) | ADOT (azdot.gov)
- 37.0 percent goes to a Public Transportation Fund (PTF) to be used solely for capital costs, maintenance and operation of public transportation classifications and capital rehabilitation costs associated with the light-rail system.

ADOT administers the RARF, and the RPTA is responsible for administering the PTF.

Highway User Revenue Fund (HURF)

The State of Arizona taxes motor fuels and collects a variety of fees and charges relating to the registration and operation of motor vehicles on the state public highways. These collections include gasoline and use-fuel taxes, motor-carrier taxes, vehicle-license taxes, motor vehicle registration fees and other miscellaneous fees. These revenues are deposited in the Highway User Revenue Fund (HURF) and are then distributed to the cities, towns and counties and to the State Highway Fund (SHF). A portion of the SHF is suballocated to the MAG region based on statute and State Transportation Board policy. Arizona Revised Statue 28-6538 (A.R.S. 25-6538) describes the calculation for distributing the funding to the MAG region. In addition, the State Transportation Board (STB) has set aside an additional 2.6 percent of SHF for use in the MAG region (Arizona State Transportation Board Policies).

Federal

Federal Highway Administration (FHWA)

The Federal-Aid Highway Program (FAHP) is an umbrella term used to cover the federal highway programs used in the MAG region. The FAHP is primarily funded from revenues collected from certain federal taxes on gasoline, tire sales, and other items. These revenues are deposited into the Federal Highway Trust Fund. Funding under the FAHP is provided through a multistep funding cycle that includes authorization by Congress of the funding for various highway programs, typically on a multiyear basis through a surface transportation bill (e.g., Infrastructure

Investment and Jobs Act (IIJA). The authorization act defines the programs and establishes maximum funding levels. When an authorizing act establishes a program, it sets rules for the amount of funds available in a federal fiscal year, a description of how the funds are to be distributed, the length of time during which the funds may be used, and a list of eligible activities. Through "contract authority," authorized amounts become available for obligation according to the provisions of the authorization act without further legislative action. By definition, contract authority is not funded and a subsequent appropriations act in the form of an annual budget bill is necessary to pay the obligations under contract authority.

Resource Listing:
Bipartisan Infrastructure Law (BIL) - FHWA | Federal Highway Administration (dot.gov).

A Guide to Federal-Aid Programs and Projects provides a detailed overview of specific federal highway programs.

Carbon Reduction Program (Carbon)

The Carbon Reduction Program is a new federal program introduced as part of the IIJA, which provides funds for projects designed to reduce transportation emissions, defined as carbon dioxide (CO2) emissions from on-road highway sources. The MAG Regional Council approved allocating the Carbon funding to deploy electric vehicle charging infrastructure in the region and also administer a pilot program to evaluate alternative-fueled transit vehicles.

Congestion Mitigation and Air Quality Improvement Program (CMAQ)

CMAQ funds are available for transportation projects or programs that will contribute to improving nonattainment or maintaining the National Ambient Air Quality Standards (NAAQS) under the Clean Air Act in both nonattainment and maintenance areas for carbon monoxide, ozone, and particulate matter. Projects may include a wide variety of highway, transit, and alternative mode projects that contribute to improved air quality.

MAG prepares a CMAQ evaluation that includes the estimated emission reduction benefits and cost-effectiveness of the projects submitted by member agencies. This evaluation is used by the Transportation Review Committee and modal committees in evaluating and prioritizing projects. MAG has implemented the Congestion Management Process (CMP), which has been integrated into the CMAQ competitive application process for the Bicycle and Pedestrian and ITS projects. The CMP is a flexible evaluation process that meets changing conditions as the federal guidance and regional priorities change. MAG relies on a competitive application process to program CMAQ funds.

CMAQ is used in a variety of programs in the MAG region that are specific to air quality, such as paving of unpaved roads, regional rideshare, telecommuting, vanpools, and PM-10 Certified Street Sweepers.

Highway Safety Improvement Program (HSIP)

The purpose of the Highway Safety Improvement Program (HSIP) is to achieve a significant reduction in traffic fatalities and serious injuries on all public roads through the implementation of infrastructure-related highway safety improvements. ADOT is responsible for administering the state program with oversight from FHWA. ADOT's Highway Safety Section is responsible for the development of guidelines related to process and project eligibility.

National Highway Performance Program (NHPP)

The NHPP provides support for the condition and performance of the National Highway System (NHS), for the construction of new facilities on the NHS, and to ensure that investments of Federal-aid funds in highway construction are directed to support progress toward the achievement of performance targets established in the state's asset management plan.

NHPP funding is one of the federal funding sources used to deliver the FLCP and statewide projects that are located in Maricopa County.

Railroad-Highway Grade Crossing Program (RHC)

A share of HSIP is set aside to address railroad crossing safety problems. These funds are administered by ADOT on a first-come, first-served basis. The federal match is 100.0 percent. Available statewide funding for RHC projects is approximately $2.3 million annually.

Surface Transportation Block Grant Program – MAG

STBGP is the most flexible of federal transportation funds and may be used for highways, transit, or streets. MAG programs approximately $9 million of STBGP funding annually for the Unified Planning Work Program (UPWP) for regional transportation planning and air quality studies and contingencies. The remaining funds are allocated and programmed based on the RSTIIP with the majority of funding being programmed to the new Arterial Rehabilitation and Reconstruction and Arterial Widening competitive programs.

Off-System Bridge (OSB)

A share of the STBGP is set aside for the Off-System Bridge (OSB) Program. The program is used to fund the design and/or construction of replacements or rehabilitations of roadway bridges over waterways, topographical barriers, roadways, railroads, canals, ferry landings, etc. on bridges that are not on the Federal-aid highway system (local roads or rural minor collectors). The bridges must have been determined deficient because of structural deficiencies, physical deterioration, or functional obsolescence.

Transportation Alternatives (TA)

TA is a set-aside from STBGP. These funds encompass a variety of smaller-scale transportation projects such as pedestrian and bicycle facilities, recreational trails, safe routes to school projects, community improvements such as historic preservation and vegetation management, and environmental mitigation related to stormwater and habitat connectivity.

A portion of TA funding is suballocated to urban areas with populations of over 200,000. MAG is responsible for selecting projects through a competitive process, in consultation with the state. The funds may be used for projects anywhere within the boundaries of the urban area. There are no location restrictions for TA infrastructure projects, and they are not required to be located along highways.

Safe Routes to School (SRTS)

As a subset of eligible activities under TA, MAG sets aside $400,000 annually to support SRTS eligible activities regionwide. The SRTS program was established to enable and encourage children, to walk and bicycle to school; to make walking and bicycling to school safe and more appealing; to facilitate the planning, development, and implementation of projects that will improve safety and reduce traffic, fuel consumption, and air pollution in the vicinity of schools.

SRTS noninfrastructure projects, traffic education and enforcement activities must take place within approximately 2 miles of a primary or middle school (Kindergarten through 8th grade). Other eligible SRTS noninfrastructure activities do not have a location restriction. SRTS infrastructure projects are broadly eligible under other TA set-aside eligibilities, and therefore do not have location restrictions.

Federal Transit Administration (FTA)

Federal Transit funds are programmed through an annual apportionment process and through various formula and competitive grant programs. In addition, FTA provides fact sheets that contain a detailed overview of each funding type. The following sections provide a summary of the individual programs used in the MAG region.

Resource Listing:

Apportionments | FTA (dot.gov)

Grant Programs | Federal Transit Administration (dot.gov)

FTA Program Fact Sheets under the Bipartisan Infrastructure Law | FTA (dot.gov)

Urban Area Formula Program (5307)

The Urban Area Formula Funding program (49 U.S.C. 5307) makes federal resources available to urban areas (UA), and to governors for transit capital and operating assistance in urban areas, and for transportation related planning. An urban area is an incorporated area with a population of 50,000 or more that is designated as such by the U.S. Department of Commerce and Bureau of the Census.

The MAG region comprises two UAs: Phoenix-Mesa-Scottsdale (PMS) and Phoenix West-Goodyear-Avondale (PGA). Each UA receives a separate apportionment to be utilized within its respective boundaries.

Fixed Guideway Capital Investment Grants— (5309)

The discretionary Capital Investment Grant (CIG) program provides funding for fixed guideway investments, including: new and expanded rapid rail, commuter rail, light rail, streetcars, bus rapid transit, as well as corridor-based bus rapid transit investments that emulate the features of rail. There are four categories of eligible projects under the CIG program: New Starts, Small Starts, Core Capacity, and Programs of Interrelated Projects.

- New Starts projects are new fixed guideway projects or extensions to existing fixed guideway systems with a total estimated capital cost of $300 million or more, or that are seeking $100 million or more in Section 5309 CIG program funds.
- Small Starts projects are new fixed guideway projects, extensions to existing fixed guideway systems, or corridor-based bus rapid transit projects with a total estimated capital cost of less than $300 million and that are seeking less than $100 million in Section 5309 CIG program funds.
- Core Capacity projects are substantial corridor-based capital investments in existing fixed guideway systems that increase capacity by not less than 10 percent in corridors that are at capacity today or will be in five years. Core capacity projects may not include elements designed to maintain a state of good repair.
- Programs of Interrelated Projects comprise any combination of two or more New Starts, Small Starts, or Core Capacity projects. The projects in the program must have logical connectivity to one another and all must begin construction within a reasonable time frame.

Transportation for Enhanced Mobility of Seniors & Individuals with Disabilities (5310)

This program (49 U.S.C. 5310) provides formula funding to states for the purpose of assisting private, nonprofit groups in meeting the transportation needs of the elderly and persons with disabilities when the transportation service provided is unavailable, insufficient, or inappropriate to meeting these needs. Funds are apportioned based on each state's share of population for these groups of people, as included in the last census.

Funds are obligated based on the annual program of projects included in a statewide, and/or regional grant application. The designated recipient agency (ADOT or the City of Phoenix) ensures that local applicants and project activities are eligible and in compliance with Federal requirements, that private not-for-profit transportation providers have an opportunity to participate as feasible, and that the program provides for coordination of federally assisted transportation services assisted by other federal sources. Once FTA approves the application, funds are available for designated recipient administration of its program and for allocation to individual subrecipients within the jurisdiction.

State of Good Repair Grants (5337)

The State of Good Repair Grants program provides financial assistance to public transit agencies that operate rail fixed-guideway and high-intensity motorbus systems for the maintenance, replacement, and rehabilitation of capital assets, along with the development and implementation of transit asset management plans. The funds reflect a commitment to ensuring that public transit operates safely, efficiently, reliably, and sustainably. The Phoenix-Mesa-Scottsdale (PMS) and Phoenix West-Goodyear-Avondale (PGA) UAs receive a separate apportionment to be utilized within its respective boundaries.

Bus and Bus Facilities (5339)

This program provides capital funding to replace, rehabilitate and purchase buses and related equipment and to construct bus-related facilities, including technological changes or innovations to modify low or no emission vehicles or facilities. Funding is provided through formula allocations and competitive grants. A subprogram provides competitive grants for bus and bus facility projects that support low and zero-emission vehicles.

Other Federal Funding

Congressionally Directed Spending/ Community Project Requests

Starting with the federal fiscal year (FFY) 2022 appropriations, Members of Congress began a new process for Members to request funds for specific projects and established requirements to help ensure transparency and accountability. While directed funds were previously referred to as "earmarks," under this new more transparent process this funding is referred to as "Congressionally Directed Spending (CDS)" in the Senate and "Community Project Funding (CPF)" in the House. Under the new system, members must provide information, such as the purpose and recipient of the funding to ensure no conflicts of interest. Another requirement is that the Government Accounting Office (GAO) get involved in tracking the funds.

CDS/CPF items can promote economic development, infrastructure, public safety, education and health care initiatives, and other worthy investments in communities across the country. Some MAG Member Agencies have been awarded funding through this process.

Local Funds

Local resources, including taxes, bonds, general funds, Highway User Revenue Funds (HURF) allocated to member agencies, and impact fees, allow member agencies to fully fund local transportation projects, operations and maintenance, and pavement preservation, and meet various match requirements for capital projects.

As part of the TIP development, member agencies are asked to provide information on all regionally significant projects, including financial details. In addition, MAG asks member agencies to provide commitment letters every two years to ensure local funds are available to satisfy any regional or federal matching requirements.

Other - State

Additional region funding comes from amounts associated with proceeds from the issuance of bonds, interest income and third-party billings. Also included in these amounts are the ADOT projects programmed in the MAG region that are not part of the Freeway Life Cycle Program (FLCP).
