Other	Yes
Description of Other Lanes	The town is surrounded by several rock quarries, sand and gravel crushing pits, asphalt hot-mix and concrete plants. Town limits on arterials and collectors including ADOT highway ROW's due to the fact the ADOT has equipment that is usually several miles away and Florence can respond quicker to clear roadways and open the arterials with minimal traffic delays. The "other" is considered for severe weather, monsoon cleanup, industrial construction road spillage, and after hour emergencies which is the result of less actual miles but is highly required to reduce safety concerns for travelers.
